OPIC CIPO

Trade-marks Journal

Vol. 62 No. 3184

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

SAN DIEGO PADRES

Image Description (Vienna)
- Shields containing other figurative elements or inscriptions
- Shields containing other figurative elements
- Shields containing inscriptions
- More than two lines or two bands
- Wavy lines or bands, zigzag lines or bands
- One polygon
- Polygons containing other figurative elements
- Polygons containing one or more letters
- Polygons with inscriptions projecting beyond the circumference
- Polygons with dark surfaces or parts of surfaces

GOODS

Clothing, namely, caps hats, visors, shirts, T-shirts, tank tops, sweaters, pullovers, vests, shorts, pants, skirts, baseball uniforms, jerseys, warm-up suits, jogging suits, sweatshirts, sweatpants, robes, sleepwear, thermal loungewear, jackets, cloth bibs, infant wear, infant diaper covers, cloth diaper sets with undershirt and diaper cover, rompers, creepers, baby booties, toddler anklets, ties, wristbands, footwear, namely, athletic footwear.

SERVICES

Entertainment services, namely, baseball games, competitions and exhibitions rendered live and through broadcast media, namely television and radio, and via a global computer network and a commercial on-line service; information services, namely, providing information in the field of sports , entertainment and related topics, and providing for informational messages relating thereto; entertainment services, namely, providing multi-user interactive computer games all via a global computer network and a commercial on-line service; educational services in the field of baseball skills programs, baseball camps, seminars and clinics offered live and through on-line instruction; organizing community baseball games; providing facilities for sports tournaments and competitions relating to baseball; organizing and conducting fantasy baseball camps, baseball contests and sweepstakes; fan clubs; providing newsletters in the field of baseball.

CLAIMS

Used in UNITED STATES OF AMERICA on goods and on services. Registered in or for UNITED STATES OF AMERICA on August 29, 2006 under No. 3,136,502 on services; UNITED STATES OF AMERICA on November 21, 2006 under No. 3,174,798 on goods

EDUCATION FOR YOUR WORLD

GOODS

Printed matter namely, books, booklets, magazines and periodicals; stationery, namely notebooks, paper, scrapbooks, document portfolios, office binders, memo pads, and sketchbooks; instructional and teaching materials, namely books, textbooks, exercise books, activity books, written course materials, correspondence course materials and educational videos for use with courses of instruction at the high school, college, and university levels and in vocational training and English language training; pens and pencils

SERVICES

Personnel recruitment and personnel management consultancy; providing business marketing information for others; advertising and business management consultancy; advertising the wares and services of others; psychological testing and vocational evaluation; business efficiency consultation services; systemisation and compilation of information onto computer databases; education services, namely administration of educational programs at the high school, college, and university levels and in the fields of vocational training and English language training; education services, namely providing courses of instruction, seminars, lectures and tutorials at the high school, college and university levels and in the fields of vocational training and English language training; operation of educational facilities at the high school, college and university levels and for vocational training and English language training; providing educational resources, namely books, textbooks, exercise books, activity books, written course materials, correspondence course materials and educational videos for use with courses of instruction at the high school, college, and university levels and in vocational training and English language training; education services, namely providing seminars and conferences related to courses of instruction offered at the high school, college and university levels and in the fields of vocational training and English language training; operation of a website providing information related to high school, college and university education, and vocational and English language training; educational services, namely providing correspondence courses at the high school, college and university levels and in the fields of vocational training and English language training; mentoring services, namely conducting classes, conferences, seminars and workshops, and providing career placement services and career counselling, all in the field of business; educational services, namely providing courses of instruction at the high school, college and university levels and in the fields of vocational training and English language training via the Internet; providing educational resources, namely books, textbooks, exercise books, activity books, written course materials, correspondence course materials and educational videos for the high school, college, and university levels and for vocational training and English language training via the Internet; publication of texts and books; publication of electronic books and journals online

CLAIMS

Priority Filing Date: AUSTRALIA September 02, 2010, Application No: 1381288 in association with the same kind of goods and in association with the same kind of services. Used in AUSTRALIA on goods and on services. Registered in or for AUSTRALIA on September 18, 2012 under No. 1381288 on goods and on services. Proposed Use in CANADA on goods and on services

GOODS

Motors and engines for motor vehicles excluding land vehicles; machine coupling and transmission components for aircraft and helicopters; compressors for aircraft and helicopters; filters for aircraft and helicopters, silencers for aircraft and helicopters, pulsation vessels, aftercoolers, fume hoods; condensation separators, drain traps, valves for aircraft and helicopters, air receivers, dryers for aircraft and helicopters, coolers for aircraft and helicopters, anti-vibration mountings, electromechanical controls for aircraft and helicopters, pumps for aircraft and helicopters, starter and protection panels for aircraft and helicopters, electric motors and pipes, all being fittings for compressors; motors and engines for aircraft and helicopters and parts of aircraft and helicopters; air vehicles, namely aircraft, aeroplanes, helicopters, air cushion vehicles, amphibious airplanes, seaplanes and hydroplanes; aerial conveyors; vehicle seats; safety belts for vehicle seats; security harness for vehicle seats.

SERVICES

Business management; business administration; Promoting the wares and services of others in connection with civil aviation, aircraft and helicopters by means of arranging for sponsors to affiliate wares and services with sports games, namely soccer games and hockey games and cultural exhibitions, namely horse shows, live musical concerts, live opera shows; passenger air transport, customer service in the field of airline reservations, operation of a website containing airline schedules and sale of airline tickets; air transportation of goods and freight; business mediation in selling products and providing services in connection with civil aviation, aircraft, helicopters and parts thereof; Aircraft and helicopter and aircraft and helicopters parts construction services, aircraft and helicopter and aircraft and helicopter parts repair services; installation services, namely repair and maintenance of aircraft and parts thereof; maintenance and repair of communication systems; aircraft and helicopter and aircraft and helicopter parts electric installation services; packaging and services relating to the storing of goods in a warehouse or building before or after transportation of the goods by aircraft; Scientific and industrial research relating to aircraft, in particular research and development relating to aircraft and helicopters, mechanical research relating to aircraft and helicopters, technical research relating to aircraft and helicopters; technical consulting in the field of aerospace engineering, engineering services for airplanes and helicopters; aircraft and helicopter and aircraft and helicopter parts surveying; technical project studies relating to aircraft and helicopters; professional consultancy and construction drafting relating to aircraft and helicopters; aircraft and helicopter design; tool design; material testing; computer engineering services; computer engineering relating to aircraft and helicopters; computer programming and creation of computer programs relating to aircraft and helicopters.

CLAIMS

Used in FRANCE on goods and on services; OHIM (EU) on goods and on services. Registered in or for FRANCE on September 19, 2008 under No. 3599653 on goods and on services; OHIM (EU) on July 23, 2012 under No. 007250061 on goods and on services. Proposed Use in CANADA on goods and on services

- More than two lines or two bands
- Thick lines, bands
- Horizontal lines or bands
- Straight lines or bands
- Red, pink, orange
- Blue

Colour Claim

Colour is claimed as a feature of the trade-mark. The upper and lower streaks to the left of the design are orange increasing in intensity from pale orange to orange in a left to right motion. The middle streak to the left of the design is blue, fading from blue to light blue in a left to right motion. The letters TE to the right of the three streaks are blue.

GOODS

Machines for splicing, sealing, crimping, stripping and cutting wires and cables; electrically powered scrap chopper; machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines; machines for manufacturing connectors; machines for manufacturing cables and wires; machines for manufacturing switches, circuit boards, circuit board components and electric relays; machines for manufacturing and assembling cables; molding machines; metalworking machines; machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards; components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors,machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards; automotive parts, namely adhesive sealing gels, heat shrink tubing, terminal blocks, electronic sensors and switches, patching connectors, relays, switching controllers and electronic cables; printed circuit board assembly and manufacturing machines; label machines; machines for terminating cables and wires; crimping machines and harness making machines; hand tools and implements (hand-operated); electronic hand tools and implements; parts and components for hand tools; electronic hand tools; apparatus and instruments for conducting electricity, namely electric cables and wires and connection fittings therefor; apparatus and instruments for switching electricity, namely circuit breakers, electric relays and knobs; apparatus and instruments for transforming electricity, namely electric transformers; apparatus and instruments for regulating and controlling electricity, namely circuit breakers, electric relays and knobs; components of apparatus for recording, transmission or reproduction of sound or images, namely, cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video cameras, audio receivers, audio speakers, audio transmitters and audio and video cassette recorders; automatic vending machines and mechanisms for coin operated apparatus; cash registers; computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods; circuit breakers; electronic and optical relays, sensors and switches; heat sinks; frames, covers, knobs, switches and timers for electronic and telecommunications equipment, namely network routers, network servers; electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications; electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications; electrical connectors for cables; electronic connectors for circuit boards; electrical power connectors; cable connectors; audio/video cable connectors; connectors for Ethernet communications; fibre optic connectors; plug-in connectors for computer modems and relays; housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications; housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications; housing for electrical connectors for cables; housing for electronic connectors for circuit boards; housing for electrical power connectors; housing for cable connectors; housing for audio/video cable connectors; housing for connectors for Ethernet communications; cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels; cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables; wires, namely, electrical wires; electrical and fiber optic harnesses; cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables; cable clamps, link boxes to ground and protect shields of high voltage cables; accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets; electrical cables for lighting installations; components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips; electrical cable ducts; components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards; communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards; modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies ; and computer software for use in operating and managing telecommunications systems and equipment, namely, local area network operating software, network access server operating software, wide area network operating software, virtual private network operating software, and the communications over such systems; loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit; transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines; fuse panels; computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals; remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network; audio distribution amplifiers; speaker monitors; jackfields; communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils; solid state telegraph relays; battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers; direct current ammeters; voltage transformers; power transformers; current sensors; magnetic amplifiers; broadcast filters; electrical, electronic and magnetic controllers and relays for motors; power supplies, namely electrical power connectors and power transformers; relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields; electronic terminals, namely secure terminals for electronic transmissions; cable splices; wire splices; electronic splices; chip carrier sockets; circuit boards; printed circuit boards; electronic connectors for circuit boards; Ethernet adapters; computer network adapters; fiber optic adapters; cable adapters; proximity sensors; temperature sensors; thermal sensors; timing sensors; liquid level sensors; pressure sensors; automotive sensors namely, shifting sensors, breaking sensors, acceleration sensors, temperature sensors, liquid level sensors, motion sensors, pressure sensors, proximity sensors, timing sensors; position sensors; switching sensors; angle sensors; engine speed sensors; rotation sensors; voltage sensors; frequency sensors; phase sensors; underfrequency sensors; current sensors; displacement sensors; solid-state sensors; magnetic sensors; radar sensors; inductive sensors, namely, electronic proximity sensors; gas sensors; components for wireless networks, namely, base stations, signal amplifiers, and fiber panels; antennas for radios, stereos, telephones, cars, ships, planes, cell phones, laptops, gaming consoles and global positioning systems; antennas with a tuning element, a coax cable and connector, shields and ground; receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers; GPS receivers; circuit boards; power distribution systems comprising wire grids with voltage regulators; multi-circuit power strips; receptacles, namely, power cords and extension cords ; touch screens, namely, computer, telephone, appliance and interactive display touch screens; touch computers; computer monitors; computer monitor frames; computer network switches and routers; computer networking components, namely splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors; racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets; external backup hard disk drive; fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications; plug-in components for computer modems, namely, memory sockets and cable assemblies; equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines; electrical chokes; inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors; LAN protocol magnetics; magnetic modules for suppression of electrical interference in LAN protocol; Ethernet and telecommunications networks, namely network routers and servers; resistors; power resistors; electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches; cards with computer chips and integrated circuits for carrying data, namely, computer interface and memory cards; backplanes; backplane interconnects; fiber optic attenuators; multiplexers; electronic amplifiers for increasing the power of an electric, audio or visual signal; sleeves for cables, wires, and voltage lines; electronic filters; power line filters; signal filters; diplexors; capacitors; circulators; isolators; resistors; cable and modular couplers; batteries for supply of energy, namely, general purpose batteries; battery terminals used to connect a load or charger to a single cell or multiple-cell battery; microwave products, namely, microwave harness assemblies and microwave connectors; signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters; signal modulators; electrical converters; Ethernet fibre media converters; heat sinks; computer heat sinks; meters; radio frequency identification tags; circuit protection devices, namely circuit breakers; fuses; radar systems; RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters; indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors; cabinets for holding and organizing telecommunications infrastructure cabling and connectors; panels used for mounting telecommunications equipment connectors to upright walls; heat and cold shrinkable enclosures and wraps; adhesive labels; decals; identification tags; markers for wires, cables, hoses, pipes and harnesses; tools for applying adhesive labels, decals, tags, and markers; fibre optic panels; relay panels; switch panels; radios; radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors; power converters; keypads; computer and video monitors; integrated circuits; connectors for electrical components; sleeves for covering electrical and telecommunication cables; connectors for telecommunication components; electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves; surge arrestors; overvoltage arrestors; lightning arrestors; components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes; vibration indicators; electrical fuses; light emitting diodes; electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks; voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks; fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers; computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks and the communications over such systems; extruded plastics for use in manufacturing; plastic pipes; rubber pipes; heat-shrinkable tubing; rubber products, namely, electrical insulation; electrical insulation; hoses for carrying gas discharge; hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction; insulation for the protection of cables and cable joints; protective plastic wraps for cables; tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins; polyester film; adhesive cements; adhesive sealants; adhesive thermosets; adhesive thermoplastics.

SERVICES

Building construction; repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; automotive repair and maintenance; automobile diagnostic services; automobile body shop services; customer service in the field of automotive repair; retail sale of automobile parts; installation and repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks; engineering, installation, maintenance, and repair services for satellite, telephone, cable and cellular communications networks, computer networks, networking of information and communications received by telephone, internet, radio, video and satellite; wiring of buildings for telecommunication transmissions, namely, satellite, wireless, telephone, cable, cellular, wide-area network, fax, radio, broadband and microwave transmissions; services to install telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; installation of electrical systems; installation, maintenance and repair of machines for: splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for aforesaid machines and machine tools; carrier services provided by means of fibre optic cables, telephone lines, wireless transmission, radio and microwave transmission, satellite transmission; plumbing services; installation and repair of heating and cooling systems in buildings; installation, maintenance and repair of electrical equipment and systems for the complete list of goods that follow: machines for splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards, automotive parts, printed circuit board assembly and manufacturing machines, label machines, machines for terminating cables and wires, crimping machines and harness making machines, hand tools and implements (hand-operated), electronic hand tools and implements, parts and components for hand tools, electronic hand tools, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, components of apparatus for recording, transmission or reproduction of sound or images, namely, components of cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video recorders, audio receivers, audio speakers, audio transmitters, and audio recorders, automatic vending machines and mechanisms for coin operated apparatus, cash registers, computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods, circuit breakers, electronic and optical relays, sensors and switches, heat sinks, frames, covers, knobs, switches and timers for electronic and telecommunications equipment , electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, electrical connectors for cables, electronic connectors for circuit boards, electrical power connectors, cable connectors, audio/video cable connectors, connectors for Ethernet communications, fibre optic connectors, plug-in connectors for computer modems and relays, housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, housing for electrical connectors for cables, housing for electronic connectors for circuit boards, housing for electrical power connectors, housing for cable connectors, housing for audio/video cable connectors, housing for connectors for Ethernet communications, cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels, cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables, wires, namely, electrical wires, electrical and fiber optic harnesses, cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables, cable clamps, link boxes to ground and protect shields of high voltage cables, accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets, electrical cables for lighting installations, components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips, electrical cable ducts, components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards, communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards, modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies , and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems, loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit, transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines, fuse panels, computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals, remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network, audio distribution amplifiers; speaker monitors, jackfields, communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils, solid state telegraph relays, battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers, direct current ammeters, voltage transformers, power transformers, current sensors, magnetic amplifiers, broadcast filters, electrical, electronic and magnetic controllers and relays for motors, power supplies, namely, uninterruptible power supplies and power transformers, relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields, electronic terminals, cable splices, wire splices, electronic splices, chip carrier sockets, circuit boards, printed circuit boards, electronic connectors for circuit boards, Ethernet adapters, computer network adapters, fiber optic adapters, cable adapters, proximity sensors, temperature sensors, thermal sensors, timing sensors, liquid level sensors, pressure sensors, automotive sensors, position sensors, switching sensors, angle sensors , engine speed sensors, rotation sensors, voltage sensors, frequency sensors, phase sensors, underfrequency sensors, current sensors, displacement sensors, solid-state sensors, magnetic sensors, radar sensors, inductive sensors, namely, electronic proximity sensors, gas sensors, components for wireless networks, namely, base stations, signal amplifiers, and fiber panels, antennas, antenna systems comprised of a combination of antennas with a tuning element, a coax cable and connector, shields and grounds, receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers, GPS receivers, circuit boards, power distribution systems comprising wire grids with voltage regulators, multi-circuit power strips, receptacles, namely, power cords and extension cords , touch screens, namely, computer, telephone, appliance and interactive display touch screens, touch computers, computer monitors, computer monitor frames, computer network switches and routers, splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors, racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets, external backup hard disk drive, fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications, plug-in components for computer modems, namely, memory sockets and cable assemblies, equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines, electrical chokes, inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors, LAN protocol magnetics, magnetic modules for suppression of electrical interference in LAN protocol, Ethernet and telecommunications networks, resistors, power resistors, electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches, cards with computer chips and integrated circuits for carrying data, backplanes, backplane interconnects, fiber optic attenuators, multiplexers, electronic amplifiers for increasing the power of an electric, audio or visual signal, sleeves for cables, wires, and voltage lines, electronic filters, power line filters, signal filters, diplexors, capacitors, circulators, isolators, resistors, cable and modular couplers, batteries for supply of energy, namely, general purpose batteries, battery terminals, microwave products, namely, microwave harness assemblies and microwave connectors , signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters, signal modulators, electrical converters, Ethernet fibre media converters, heat sinks, computer heat sinks, meters, electronic controllers that hold a process or condition at a desired level or status by comparison of the actual value with the desired value, radio frequency identification tags, circuit protection devices, namely circuit breakers, fuses, radar systems, RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters, indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors, cabinets for holding and organizing telecommunications infrastructure cabling and connectors, panels used for mounting telecommunications equipment connectors to upright walls, heat and cold shrinkable enclosures and wraps, adhesive labels, decals, identification tags, markers for wires, cables, hoses, pipes and harnesses, tools for applying adhesive labels, decals, tags, and markers, fibre optic panels, relay panels, switch panels, radios, radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors, power converters, keypads, computer and video monitors, integrated circuits, connectors for electrical components, sleeves for covering electrical and telecommunication cables, connectors for telecommunication components, electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves, surge arrestors, overvoltage arrestors, lightning arrestors, components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes, vibration indicators, electrical fuses, light emitting diodes, electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks, voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks, fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers, computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks, and the communications over such systems, extruded plastics for use in manufacturing, plastic pipes, rubber pipes, heat-shrinkable tubing, rubber products, namely, electrical insulation, electrical insulation, hoses for carrying gas discharge, hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction, insulation for the protection of cables and cable joints, protective plastic wraps for cables, tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins, polyester film, adhesive cements, adhesive sealants, adhesive thermosets, adhesive thermoplastics.

CLAIMS

Priority Filing Date: SWITZERLAND December 01, 2010, Application No: 63129/2010 in association with the same kind of goods and in association with the same kind of services. Used in SWITZERLAND on goods and on services. Registered in or for SWITZERLAND on May 03, 2011 under No. 614793 on goods and on services. Proposed Use in CANADA on goods and on services

FORTRESS PAPER

GOODS

(1) Security papers including banknotes; specialty papers, namely, wallpaper, passport paper, and banknote paper.

(2) Pulp and paper products, namely paper pulp, wood pulp, wood pulp produced from the kraft process, including northern bleached hardwood kraft (NBHK) and northern bleached softwood kraft (NBSK); dissolving pulp; cellulose, namely unprocessed cellulose, dissolving cellulose for use in manufacturing, highly refined cellulose for use in manufacturing; specialty cellulose products, namely, regenerated cellulose fibres, raw cellulose-based textile fibres, viscose fiber, cellulose-based biochemical products, namely cellophane and cellulose acetate; none of the aforesaid goods including finished cup stock and folding carton board for food and beverage packaging; rayon fiber and rayon fabric.

(3) Overt and covert security products based on optical interference filters and ultra violet and infra-red responsive materials, designed for incorporation into, or onto, security substrates that includes bank notes, fiduciary documents and other articles of value.

SERVICES

(1) Strategic acquisition of businesses and operating facilities, purchasing of undervalued assets, raising and deployment of investment and venture capital, and capital investment services, all in the pulp and paper products industries; paper mills for producing security papers, specialty papers, and other paper documents; production of security and specialty papers; development of optical security products; information and consultation services in respect of the aforementioned.

(2) Pulp and cellulose mills for producing dissolving pulp primarily for viscose and rayon manufacturers; transformation of pulp into specialty cellulose.

CLAIMS

Used in CANADA since as early as 2006 on goods (1) and on services (1); May 2010 on goods (2) and on services (2); January 2011 on goods (3).

GOODS

(1) Biochemical preparations for medical diagnostic use for use in quantitative detection measured in blood, human fluids, mammalian tissue samples, CSF and other mammalian body fluids, namely, protein capture agents, antibodies, buffer solutions used in analytical chemistry, biochemical reagents, RNA transcription and microRNA expression assays; biochemical preparations for medical use for use in small molecule analysis in the nature of detection of protein levels in blood and human fluids, for diagnostic, therapeutic and imaging uses; diagnostic kits for medical diagnostic purposes consisting primarily of protein capture agents and antibodies, buffers, and reagents for use in detecting Alzheimer's disease, cancer and central nervous system disorders; diagnostic kits for medical diagnostic purposes consisting primarily of protein capture agents and antibodies, buffers, and reagents for use in disease testing, health monitoring and more generally, predictive, preventive, personalized, and participatory medicine all in the fields of detecting blood disorders and detecting cancer.

(2) Medical devices and instruments, namely, mass spectrometer for measuring proteins in blood and blood derivatives, human fluids, mammalian tissue samples, cerebral spinal fluid and other mammalian body fluids namely urine, saliva and sweat, protein capture agents, antibodies, buffers, reagents, DNA, all for use in the study of RNA transcription, microRNA expression and single nucleotide polymorphisms analysis; medical devices and instruments, namely, mass spectrometer for small molecule analysis, namely, detection of protein levels in blood and human fluids.

MONSTER PET SHOP

GOODS

(1) Computer games; electronic game software for use on mobile phones, mobile computers, and mobile devices for play on such phones, computers and devices or for play on external display screens, televisions, monitors, and game consoles.

(2) Electronic game consoles for use with an external display screen, televisions, or monitor; electronic software platforms for social networking; downloadable electronic game software and electronic software platforms for social networking that may be accessed via the Internet, computers and wireless devices; electronic software to enable uploading, posting, showing, displaying, tagging, blogging, sharing or otherwise providing electronic media or information in the fields of virtual communities, electronic gaming, entertainment, and general interest via the Internet or other communications networks with third parties; downloadable electronic screen saver software and wallpaper software for use on computers, mobile phones, mobile computers, and mobile devices; downloadable electronic graphic, moving image, music and ring tone software for computers, mobile phones, mobile computers, and mobile devices.

(3) Computer games; electronic game software for use on mobile phones, mobile computers, and mobile devices for play on such phones, computers and devices or for play on external display screens, televisions, monitors, and game consoles

SERVICES

(1) Entertainment services, namely, providing online computer games; entertainment services, namely, providing online electronic games; entertainment services, namely, providing electronic games online in mobile wireless form and through electronic software platforms for social networking that may be accessed via the Internet, computers and wireless devices; entertainment services, namely, providing electronic games online in mobile wireless form and through electronic software platforms for social networking that may be accessed via the Internet, computers and wireless devices, for play on external display screens, televisions, monitors, and game consoles.

(2) Entertainment services, namely, providing temporary use of non-downloadable electronic games through cloud computing environments that may be accessed via computers and wireless devices, and through electronic software platforms for social networking that may be accessed via the Internet, computers and wireless devices.

(3) Entertainment services, namely, providing online electronic games; entertainment services, namely, providing electronic games online in mobile wireless form and through electronic software platforms for social networking that may be accessed via the Internet, computers and wireless devices; entertainment services, namely, providing electronic games online in mobile wireless form and through electronic software platforms for social networking that may be accessed via the Internet, computers and wireless devices, for play on external display screens, televisions, monitors , and game consoles.

CLAIMS

Used in CANADA since at least as early as August 2011 on goods (1) and on services (1). Priority Filing Date: UNITED STATES OF AMERICA August 15, 2011, Application No: 85/397,948 in association with the same kind of goods (1), (2) and in association with the same kind of services (1), (2). Used in UNITED STATES OF AMERICA on goods (3) and on services (3). Registered in or for UNITED STATES OF AMERICA on July 31, 2012 under No. 4,184,435 on goods (3) and on services (3). Proposed Use in CANADA on goods (2) and on services (2)

POWER RANGERS MEGAFORCE

GOODS

(1) Video game cartridges, cassettes, discs and tapes; computer game programs, cartridges and discs; downloadable computer game programs; interactive game programs; interactive game software; video games for mobile devices, personal computers, consoles, and tablets; downloadable electronic game programs; electronic game software; cinematographic apparatus, namely, video cameras; protective carrying cases specifically adapted for wireless telephones, MP3 players, digital cameras, personal digital assistants and handheld computers; cameras; digital cameras; prerecorded DVDs featuring live action entertainment for children and music; eyewear, namely, sunglasses, eyeglasses and ophthalmic frames and cases therefore; and eyewear accessories, namely, straps, neck cords and head straps which restrain eyewear from movement on a wearer.

(2) Watches and watch straps.

(3) Writing paper; writing stationery; paper party decorations; decorative paper centerpieces; paper napkins; paper party bags; paper party hats; paper table cloths; posters; printed certificates of achievement; children's activity books; binders; envelopes; printed invitations; memo pads; notebooks; coloring books; books featuring stories for children; pens and pencils; pen and pencil boxes and cases; erasers; markers; crayons; greeting cards and stickers.

(4) All purpose sport bags; athletic bags; backpacks; knapsacks; wallets; umbrellas.

(5) Furniture, namely, bedroom furniture, computer furniture, dining room furniture, garden furniture , kitchen furniture, lawn furniture, living room furniture, office furniture, outdoor furniture and patio furniture; plastic cake decorations.

(6) Dinnerware, namely, plates and paper cups; beverage glassware, mugs, bowls, plates, tumblers, cookie jars, wastepaper baskets, plastic buckets, shower caddies, cake molds, cake servers, thermal insulated containers for food and beverages; cookie cutters, plastic water bottles sold empty, hair brushes, toothbrushes, soap containers, lunch boxes.

(7) Warm up suits; jogging suits; sweat suits; sweat pants; sweat shirts; body suits; swimwear; bathing suits; beach and bathing cover-ups; gym shorts; tops, namely, halter tops, hooded tops, sweat tops and tube tops; shirts; jerseys; pajamas; robes; scarves; sport shirts; T-shirts; knit shirts; polo shirts; pullovers; sweaters; vests; tank tops; jumpsuits; playsuits; jackets; overcoats; parkas; wind resistant jackets; leather jackets; athletic footwear; boots; slippers; sleepwear; loungewear, underwear, briefs, underpants; boxer shorts; cloth diapers; undershirts; hats; headwear, namely, baseball caps and caps; Halloween costumes.

(8) Toys, games, playthings, and sporting goods, namely, basketball backboards; toy and non-motorized scooters; skateboards and skateboard bags; bendable play figures and accessories therefore; toy action figures and accessories therefore; sports board games; basketballs; playground balls; rubber action balls; sports balls; foam action balls; toy hoop sets; toy banks; toy watches; bath tub toys; children's multiple activity toys; toy magic tricks; water squirting toys; wind-up toys; squeeze toys; jump ropes; sling shots; toy walkie-talkies; action skill games; talking dolls; toy 3-D viewers and reels; board games; card games; hand held units for playing electronic games; stand alone videogame machines and programs therefore sold as a unit; watches capable of playing video games; hand held LCD game machines; coin and non-coin operated game tables; pinball machines and pinball-type games; jigsaw puzzles; manipulative puzzles; mechanical action toys; battery-operated action figure toys; puppets; dolls; playsets for dolls; doll clothing; doll costumes; children's play cosmetics; role playing games; action-type target shooting game sets comprising toy gun, toy suction darts and target; toy weapons; squirt guns; kites; paper and plastic party favors in the nature of small toys and noisemakers; party balloons; stuffed and plush toys; latex squeeze toy figures; musical toys; inflatable bath toys; swimming and inflatable ride-in toys; toy vehicles; transforming robotic toy vehicles; non-motorized ride-in toys; inflatable play swimming pools; toy play houses and toy play tents; surf boards, kick board floatation devices, body boards and leashes therefore for recreational use; toy sand boxes and sand toys. snow sleds, toboggans, snow saucers and snow boards for recreational use; toy building blocks; mobiles for children. Christmas tree ornaments that are neither confectionery nor illuminated; toy craft kits comprising molds and mouldings for making toy figures; plastic action figure models; flying discs; pet toys; marbles; return tops; and playing cards.

SERVICES

Entertainment services in the nature of a live-action television series; entertainment services, namely, production of live events for children, namely, theatrical performances, music concerts, stage shows, appearances by a professional entertainer; entertainment services, namely, computer on-line services offered over a worldwide communication networks in the nature of online games and information in the field of television show programs and sound clips and family entertainment; providing a web site featuring video clips, sound clips and images, all in the field of television show programs and family entertainment via a global communications network; and entertainment information in the nature of information about live action entertainment for children.

INNOVATION FOR SUSTAINABILITY

GOODS

(1) Skin care preparations, namely, aloe vera gel and skin lotions; hair care preparations, namely shampoo, conditioner, and styling gel; Candles.

(2) Chemicals and microbes used in industry and science, namely, solvents for use in semiconductors, muds for drilling operations, additives for use in the manufacture of cosmetics, filtration media for removal of oil from aqueous streams and chemicals for environmental waste solidification, and namely, microbes for waste treatment; automotive fluids, namely windshield cleaner and windshield antifreeze; high- and low-tack adhesives used in industry for decals, bandages, packing tapes and for manufacturing apparel, toys and mattresses; synthetic resins; unprocessed plastics; fertilizers; food preservatives; Vegetable-based dyes; paints for use on residential structures; preservatives against corrosion; preservatives against contamination; colorants for foodstuffs and cosmetic preparations; metals for decorators; preservatives against deterioration of wood; Industrial detergents; consumer detergents, namely laundry detergents and household cleaning preparations; solvents, namely, make-up removers, nail polish removers, and paint removers; polishing preparations for metal and wood; skin care preparations; hair care preparations; dentifrices, perfumery; Industrial oils and greases; lubricants, namely, motor oils and food grade lubricants for food processors; fuels; electrical energy namely, electricity; illuminants, namely, petroleum and crude oil; dust absorbing, wetting and binding compositions for use in energy production and water treatment applications; Pharmaceutical preparations for vitamin deficiencies, namely, dietary supplements; dietetic substances adapted for medical use, namely, crackers and herbal, fruit and black teas in tea bags; food for babies and infants; pharmaceutical preparations for use in dermatology, namely, preparations for use in treating wounds and burns; hygiene products, namely, medicated lotions for skin; wadding materials for dressings; menstruation protective products, namely, pantyliners; analgesics; diagnostic preparations, namely kits comprising chemical reagents for medical use; pharmaceutical materials for dental medicine, namely, dental repairing composites; air fresheners; herbicides; disinfectants for hygienic purposes; Steel alloys; steel plates; portable steel buildings; metal building materials, namely, siding, awnings , pipes, ladders, and ventilation ducts; metal fasteners; metal hardware, namely, springs and metal handles for cabinets; aluminum foil; ores; Electricity generators for residential use; solar-powered electricity generators; wind-powered electricity generators; agricultural machines, namely, combines, harvesters, tillers; non hand-operated agricultural appliances, namely, plows, reapers; waste handling machines, namely, waste compactors and machines for separating waste materials ; water treatment machines, namely, desalination systems and pumps for use in irrigation systems;

machines for the oil industry, namely, oil-water separators; machines for the construction industry, namely, mechanical shovels and accessories; machines for the manufacturing industry, namely wood working machines, plastic working machines, metal working machines and industrial robots; machines for the logistics industry, namely forklifts, loading and unloading machines, and conveyor belts; machine parts, namely, roller bearings for machines and catalytic converters; machines for the printing industry, namely, printing presses and devices for sorting, trimming, binding, folding, packaging, bundling and stacking printed products; machines for the apparel industry, namely, embroidery and sewing machines; parts and assemblies of weaving machines, namely, heddle frames, edge binders; engines not for land vehicles, namely, boat engines, aircraft engines; engines not for land vehicles, namely; combustion engines for the generation of electricity and heat as complete unit, namely, combined heat and power plants; coupling and transmission components for machines not land vehicles; electric hand drills; machines for gardening, namely, hedge cutters, lawn mowers and leaf blowers; food processing apparatus, namely, machines for deboning meat, machines for packaging, and food processors for household use; vacuum cleaners; washing machines; dishwashers; Tableware; kitchen utensils; pocket knives with multi-purpose attachments ; personal grooming tools, namely scissors, razors, electric hair clippers, electric hair dryers, tweezers and nail files; hand-operated garden tools; hand-operated home improvement tools, namely, hammers, caulking guns, perforating tools; fulling tools, namely, peening hammers and shaping dies; Electronic devices, namely, light emitting diodes, liquid crystal elements; electrolysers ; batteries, namely, rechargeable batteries and internal solid state batteries for consumer electronics; electric sockets and electric light dimmers; lifesaving flotation clothing; fire-extinguishing apparatus, namely, fire extinguishers; fire-extinguishing apparatus, namely, computer software and hardware for use in operating a fire suppression system; fire-extinguishing apparatus, namely, atomizers for spraying water or other chemicals to suppress fire, smoke, heat and particles, and for smoke-scrubbing; security equipment, namely, smoke detectors and fire-extinguishers; security equipment, namely, video cameras and motion detectors; electronic blackboards and whiteboards used to capture and project images; optical disk recorders; optical products, namely, blank optical disks; optical products, namely, photosensitive films that adapt to light conditions; optical products, namely, sunglasses and eyewear accessories; bar code readers; computer components, namely, semiconductors, microprocessors, circuit boards and memory cards; magnetic cards, namely, value storage smart cards; blank magnetic data storage media; personal digital assistants (PDAs); calculating machines, namely, calculators, cash registers and Point-of-Sale (POS) systems; computer servers; computers; peripheral devices, namely, pointing devices, namely mice and electronic pens for visual display units; peripheral devices, namely, keyboards, wireless local area networking (LAN) devices, printers, facsimile machines and photocopiers; computer software for content management systems, namely, software that enables WYSIWYG (What You See Is What You Get) web page development and updates; computer software for personal digital assistants (PDAs); environmental sensors, namely apparatus for air analysis; computer hardware and software systems for monitoring environmental conditions, namely air quality, in commercial structures; computer hardware and software systems for monitoring the location of tagged assets; computer software for research and analysis of industry performance data relating to impacts on people, planet and prosperity; digital cameras; digital audio players; pre-recorded optical disks featuring dramatic and documentary films; computer software for editing images; computer game programs; radio communication apparatus for nautical and aeronautical use; in-car navigation systems; tuners for television signal decoding; corded telephones; mobile telephones; electric welding apparatus, namely, electric arc welders; glassware for scientific experiments; Medical supplies, namely, gloves, tongue depressors, peroxide; defibrillators; apparatus for use in medical analysis, namely, blood analysis, and blood pressure analysis, and thermometers; infrared thermometers; diagnostic apparatus for medical purposes, namely, diagnostic imaging apparatus; ultrasound gel; physical exercise apparatus, for medical purposes, namely rehabilitation equipment; cardio frequency monitors to be used during exercise, sports and leisure activities; electric massage appliances, namely, electric vibrating massager; electrically operated beds for nursing-care use; surgical instruments; orthopedic implants; hearing aids; prosthetics; Water treatment equipment, namely, desalination systems; water treatment equipment for industrial use, namely, water-filtering apparatus, and ultraviolet and chemical sterilization units; water filters for residential and industrial use; apparatus for waste or sewage treatment, namely, waste water purification units; gas refining apparatus namely, hydrogen generators and gas scrubbers; lighting apparatus, namely, electric lamps; commercial ventilating fans; electric fans; air dryers; desiccating apparatus for industrial use, namely, driers and spray driers for the ceramic industry; industrial and residential heating apparatus for materials and gases, namely, infrared lamps, electric space heaters, outdoor heaters, central heating systems, kilns, heat exchangers, batch furnaces and continuous furnaces, and furnaces for smelting and refining glass; industrial and residential cooling apparatus for materials and gases, namely, cooling tunnels, refrigerating chambers, central air-conditioners; bathroom fixtures; bath tubs; home appliances, namely, ovens, microwave ovens, refrigerators, toasters, coffee makers, rice cookers, hot plates, barbecues; humidifiers; dehumidifiers; electric air deodorizers; Vehicles for locomotion by land namely, buses, campers, trucks, locomotives, railway rolling stock; tractors, forklifts, automobiles, motorcycles, snowmobiles, all terrain vehicles, bicycles; apparatus for land vehicles, namely batteries, engines, shafts, axles, bearings, shock absorbers, transmission belts; apparatus for land vehicles, namely brake parts; vehicle accessories namely, seat covers for vehicles, automobile windscreens, windscreen wipers, automobile tires, motorcycle tires, hydraulic circuits for vehicles; watercraft, namely, large and small boats; large and small watercraft propellers; aircraft; wheelchairs; cleaning carts for custodial workers; accessories for two-wheeled cycles, namely bells , brakes, bicycle seats, drive chains, inner tubes, and storage bins; Vegetable-based BB pellets, namely BB pellets produced from plant materials; paintball guns for paintball; paint balls for paintball guns; gun locks; non-lethal self-defense tools, namely, pepper spray; explosives; fireworks ; Jewellery; costume jewellery; precious stones; horological and chronometric instruments, namely, clocks, watches, and the tools horologists use to fix them; Musical instruments, namely, guitars, harmonicas, electronic keyboards, drums, tuning forks; Cardboard boxes; bubble wrap; books; graphic novels, books featuring stories in illustrated form; printed materials, namely, newsletters, magazines, and printed guides; printed awareness materials, namely, lawn signs and shopping bags; calendars; postcards; decals; paint brushes; office and school requisites, namely, 3-ring binders, pencils, diaries; paper and paper substitutes for commercial printing; bookbinding materials; paper towels; Barriers against environmental contamination, namely, floating barriers and subsurface valves; cellulose-based plastics; biodegradable plastics; synthetic rubber and rubber and goods made from these materials and not included in other classes, namely, rubber rings, and crude or partially processed rubber; plastics in extruded form for use in manufacture; sealants, namely, sealants for use in sealing roofing, gutter joints, metal flashing, and floor tiles for home builders, and thread sealants for plumbers; flexible pipes, not of metal, namely, plastic pipes; insulating materials, namely fire-resistant, moisture-resistant, electrical, acoustic and glass-fiber-fabric insulating materials; insulating materials, namely, protective interlayer dielectric materials for use in computer hardware; packing materials, namely, bubble wrap, bubble mailers, packing peanuts, packing material that wicks moisture, and molded packing materials for machine parts; synthetic stuffing materials for sleeping bags and jackets; carbon fibers; coffee cups; leather and imitations of leather and goods made from these materials and not included in other classes, namely, portfolios for holding writing paper, garment bags and handbags; fashion accessories, namely, belts; canvas shopping bags; umbrellas; parasols; Non-metallic rigid pipes; non-metallic building materials, namely, non-metallic flooring, namely, floor tablets and wood planks;

non-metallic portable buildings for residential and commercial use; asphalt; asphalt felt; bituminous coatings; figurines of stone; Furniture, namely home furniture, office furniture, and garden furniture; mirrors for bedroom sets; wicker accessories, namely, wicker tables, wicker handbags, wicker place mats; mattresses; futons; cushions; pillows; bedding; curtains; curtains not of textile material; bamboo blinds; hand-held mirrors; picture frames; inflatable advertising articles and objects, namely inflatable billboards and bouncy castles; printed appliqués and decorations; Plastic boxes for transport and storage; storage and transportation pallets not made of metal; furniture parts, namely, legs and drawers, cabinetry hinges, sliding rails for furniture drawers and plastic fasteners; non-metal window and door fittings; Travel mugs; kitchen utensils; earthenware; storage containers for household use; disposable tableware; feeding vessels for pets; glassware; household goods, namely, vases, flower pots, glass figurines; cleaning implements, namely, cleaning cloths, steel wool, brooms, mops; paper dispensers for home use; paper dispensers for commercial use; soap dispensers for home use; soap dispensers for commercial use; personal care goods, namely, powder compacts, hair brushes, combs and bath sponges; unworked or semi-worked glass; Ropes, namely, sailing, mountaineering and caving ropes; ropes for tying-down loads; belts for clamping loads; string; nets, namely, nets for food packaging, extensible cargo nets, industrial (fishing) nets, sacks for transportation of bulk materials, bags for composting organic material; garment bags for storage; tents; awnings; raw fibrous textile materials; synthetic fibers, non-woven fibers for conversion into a variety of industrial and consumer goods; Yarns and threads, for textile use; Fabrics included in this class, namely, woven fabrics; textile goods, namely, table covers; place mats; glass fiber felt; canvas for tapestry or embroidery; Clothing namely, shirts, golf shirts, shorts, pants, jackets, swimwear, and robes; footwear, namely, shoes and boots; headwear, namely, hats and caps; fashion accessories, namely scarves; Lace and embroidery; badges, namely, cloth badges, ornamental and novelty badges, and appliqués made of textile materials; woven and knitted ribbons; artificial flowers; head ornamentation, namely, hair pins, barrettes, false hair, and wigs; textile fasteners; Carpets; mats, namely, floor mats, bath mats, locker-room mats and car mats; carpet underpads; linoleum and other materials for covering existing floors, namely, artificial turf; wallpaper; Toys, namely, plush toys, dolls and doll accessories, action figures, toy vehicles, toy boats; games, namely, board games, jigsaw puzzles, playing cards; electronic games adapted for use with television receivers only; coin-operated entertainment machines; sporting goods, namely, skis, surfboards, skateboards, roller blades, basket balls, and yoga mats; sporting goods, namely, racquet sports equipment, namely, nets for tennis or badminton, tennis racquets, squash racquets and badminton racquets, tennis balls, squash balls, badminton shuttlecocks, and guts for stringing racquets; sporting goods, namely, diving equipment, golf equipment, and fishing rods and tackle; exercise machines; namely, elliptical trainers, treadmills, stationary bicycles; holiday decorations; Meat; fish; poultry; meat extracts; cooked meat, fruits and vegetables; processed food, namely, processed fruit-based bars and packaged food combinations in the form of a meal; dietary supplements packaged as food bars, tablets, and powdered food additives; jams; eggs; milk products; edible oils; Coffee; tea; beverage powders; yeast; sugar; rice; preparations made from cereals, namely flour; cereals; biscuits; bread; pasta; cocoa; chocolate; chocolate products, namely , chocolate bars; pancake syrup; chewing gum; frozen confectionery; condiments, namely, salt, tomato sauce, salsa, ketchup, mustard, mayonnaise, hot sauces, steak sauces, and sauce mixes; salad dressings; spices; Forestry products, namely, unsawn timber and unprocessed logs; grains; fresh fruits and vegetables; malt; live animals; food for animals; agricultural seeds; horticultural seeds; natural plants and flowers; Beers; mineral water beverages; aerated beverages, namely, aerated water; fruit beverages; syrups for making beverages; Alcoholic beverages (except beers), namely, wines, distilled spirits and liqueurs; Cigarette papers; cigarette lighters; matches; smokers' articles, namely, cigarette ash receptacles.

SERVICES

(1) Association services, namely, promoting the interests of various organizations, namely, promoting public interest in and awareness of the importance of sustainable development that takes care of people, planet and profit, and promoting public interest in and awareness of global issues and international cooperation; association services, namely, organizing and conducting business and personal leadership awards programs; organizing awards, namely, organizing and conducting luncheon events recognizing the achievements of individuals and private and public companies for the purpose of fostering progress in sustainable development.

(2) Human resources services, namely, career counseling services.

(3) Consulting and information services to the fields of electronics and software, namely, services to assist makers of electronics and software developers in becoming more operationally effective and more responsible in terms of impacts on people, planet and community prosperity; legal services, namely, legal research, IP advisory services and managing legal documentation for others.

(4) Association services, namely, administering educational and professional research programs in the fields of business and sustainable development; educational services, namely, conducting educational, student, and professional policy conferences and research programs; consulting and information services to educational organizations, namely, services to assist grade schools and colleges in becoming more operationally effective and more responsible in terms of impacts on people, planet and community prosperity; computer services, namely, providing a computer database for the exchange of information and news about the production of education services.

(5) Providing information in the fields of sustainable development, business management, accounting and business marketing; information and entertainment services, namely, providing information in the fields of business and sustainable development, in the nature of narratives and contests of citizens and business people attempting to solve challenges relating to business and sustainable development, via web sites, articles, streaming audio and video; entertainment services , namely, conducting contests; consulting and information services to the entertainment, sporting and cultural activity sectors; computer services, namely, providing a computer database for the exchange of information and news about the production of entertainment, sporting and cultural activity services; computer services, namely, providing a computer database for the exchange of information and news about financial transaction services (namely commercial brokerage services, namely, trading, buying and selling commodities for others), and about financial performance and ESG reporting, and financial research.

(6) Mediation services in conclusion of commercial transactions for others; industrial ecology services, namely, brokerage, sales representation, and upgrading services for business assets, namely, marketing both business waste (such as biomass as a fuel source) and business inventory for others, and managing the treatment of the materials as needed, so that the assets do not end up in landfills and so that the transactions become new revenue streams for the sellers, thereby elevating outcomes for people, planet and profit while demonstrating the value of industrial ecology as a path to sustainable development (which includes improving community prosperity) ; commercial waste brokerage services; trading services, namely, commodity brokerage services; plant upgrading, namely the production of energy in the form of biofuels and bio-motorfuels using natural seeds and plants.

(7) Arranging and conducting conferences in the field of resource-efficient business operations and sustainable development; association services, namely, providing information to members and the public at large regarding issues relating to policies at community, regional and national levels; providing temporary use of non-downloadable software tools for performance benchmarking of Environment, Social and Governance (ESG) impacts in businesses and public agencies; computer services, namely, providing a computer database for the exchange of information and news about business sustainability performance; electronic data collection and data submission services to a central file in the field of commercial affairs namely, business sustainability performance, and analysis of this data once collected; energy supply procurement for others, namely, assisting organisations in selecting energy suppliers and finalizing the related contracts; human resources services, namely, job candidate search services; online recruiting services, namely, providing searchable job postings; providing news, information, and consultation pertaining to financial and investment matters as they relate to the field of sustainable development; Educational services, namely, conducting exhibitions and workshops in the field of techniques for businesses and people in the areas of sustainability performance, construction, sustainability reporting, environment, social affairs, and all provided via a global computer network; educational services, namely, providing non-downloadable online publications, in the nature of online tutorials in the fields of business, sustainable development, and news via web sites, and streaming audio and video; computer services, namely, providing a computer database for the exchange of information and news about the production of chemicals, fuels and electrical energy, metals, electronics and software, vehicles, plastics, leather and fashion accessories, furniture, fabrics, apparel and accessories; computer forums and databases for the exchange of information and news about printing and the production of paper products; computer forums and databases for the exchange of information and news about food production; consulting and information services to the chemical, fuels and electrical energy, metals, vehicle, printing and paper products, plastics, leather, furniture, fabrics, apparel and fashion accessories, food production, mining, transport, utilities and tourism sectors; computer services, namely, providing a computer database for the exchange of information and news about mining, transport, utilities and tourism.

(8) Arranging and conducting networking opportunities and events for citizens, business people and policy analysts; computer services, namely, providing a computer database for the exchange of information and news about the production of primary foods; consulting and information services to the primary food production sectors; computer services, namely, providing a computer database for the exchange of information and news about the production of technological and design services.

(9) Consulting and information services to the advertising sector, namely, services to assist producers of advertising services in becoming more operationally effective and more responsible in terms of impacts on people, planet and community prosperity; technical consulting in the field of internal and external communication using applied research to assist public relations professionals in creating authentic and effective messages that work better for their clients and society.

(10) Analysis services, namely business information services in the field of sustainable development, business process management, and business technology; consulting and information services to the sales and distribution services sectors; computer services, namely, providing a computer database for the exchange of information and news about sales and distribution services.

(11) Consulting and information services to the building management and construction sectors; computer services, namely, providing a computer database for the exchange of information and news about building management and construction.

(12) Consulting and information services to the computer hardware and software services sectors; computer services, namely, providing a computer database for the exchange of information and news about the production of computer hardware and software services. Consulting and information services to the construction materials sector; computer forums and databases for the exchange of information and news about the production of machines, tools and construction materials.

(13) Computer services, namely, providing a computer database for the exchange of information and news about the production of lumber; consulting and information services to the forestry sector; Computer services, namely, providing access to databases to enable real-time interaction between computer users about best practices and lessons learned, namely, providing temporary use of non-downloadable software tools for displaying data visualizations and 3D surfaces in ordinary web browsers to facilitate stakeholder collaboration, for enabling citizens, business managers, researchers and policy analysts to seek, share, challenge and improve data, files and industry best practices, and for enabling industry researchers and subject-matter experts to find each other based on a plurality of factors and then collaborate in private discussion groups; providing information to the fields of information technology and computer systems, namely, information about how makers of each can be more effective and responsible in terms of impacts on people, planet and community prosperity.

(14) Legal services, namely, organization of the handling of legal issues by external legal consultants.

Certification Mark Text

The certification mark, as used by persons authorized by the certifier, certifies that persons performing the services listed above have established to the satisfaction of the certifier, through written and practical examinations as well as course work required by the certifier, that they have the following qualifications: 1) knowledge of personal safety practices necessary to perform routine and periodic inspections of existing equipment; 2) familiarity with industry terminology; 3) ability to read and understand equipment manuals, drawings and parts lists; 4) knowledge of the purpose and function of all components, devices and accessories commonly employed on automotive lifts; 5) working knowledge of electrical and electronic control circuit principles as applied to the operation of pumps, motors, valves and switches; 6) working knowledge of mechanical principles as applied to structures, machines, mechanisms and the effects of traction on wire ropes, chains and sheaves; 7) working knowledge of hydraulic principles as applied to the operation of valves, pumps, cylinders (plungers) and piping; 8) working knowledge of pneumatic principles as applied to the operation of valves, compressors, cylinders (plungers), pressure vessels, air bags, bellows and piping; and 9) knowledge of the many and varied types and styles of automotive lifts their uses, and any limitations or restricted applications pertaining thereto. Please see document No. ANSI/ALI ALOIM: 2008 (R2013), entitled "STANDARD for Automotive Lifts - SAFETY REQUIREMENTS FOR OPERATION, INSPECTION AND MAINTENANCE", for a full description of the standards.

Colour Claim

Colour is claimed as a feature of the trademark. The applicant hereby claims the colours red, gray, black and white as a feature of the mark. The mark consists of the words "AUTOMOTIVE LIFT INSTITUTE" in black arranged between concentric gray circles, and the letters "ALI" shown in gray over a red circle. The word "CERTIFIED" is in shades of white and gray on a black background, and the words "LIFT INSPECTOR" are in white on a red background, all below the red circle. The outer gray circle is outlined by a jagged edge in gray.

SERVICES

Automotive lift inspection services.

CH CHAMPAGNE CHARLES HEIDSIECK BRUT RÉSERVE MAISON FONDÉE À REIMS EN 1851 CH CHAMPAGNE CHARLES HEIDSIECK 1851

Image Description (Vienna)

- Bottles or flasks in circular or elliptical horizontal cross section
- Parts or accessories of bottles -- Notes: (a) Including pouring devices and teats for babies' bottles. -- (b) Not including bottle openers and corkscrews (11.1.10).
- Bottle necks
- Seals or stamps
- Seals or stamps having some other form
- Seals or stamps with inscriptions
- Seals or stamps attached or applied to a document, ribbon or other object
- Letters presenting a special form of writing
- Letters embellished or decorated with a drawing
- Monograms formed of intertwined, overlapping or otherwise combined letters
- Letters crossed or barred by letters, numerals or a figurative element
- Rectangles
- One quadrilateral
- Quadrilaterals containing one or more letters
- Labels, collarettes (bottle-neck labels) -- Note: Not including tie-on labels (20.5.15).
- Blue
- White, grey, silver
- Yellow, gold

Trademark Description

The trademark consists of a metallic blue-grey applied to the entire visible surface of the bottle's capsule, as shown in the drawing. The trademark is also a two-dimensional mark. The representation of the bottle in dotted lines is not part of the trademark and is only included to indicate where the trademark is located on the bottle. The trademark consists of the logo containing the letters C and H on the background of a label affixed to the lower portion of the bottle, on which appear the words CHAMPAGNE CHARLES HEIDSIECK BRUT RÉSERVE MAISON FONDÉE À REIMS EN 1851. The same letters C and H also appear on the collar, and the words CHAMPAGNE CHARLES HEIDSIECK 1851 are written around said letters. The words CHARLES HEIDSIECK are written on the upper portion of the collar.

Colour Claim

Colour is claimed as a feature of the trade-mark. The collar and label are metallic blue-grey; on the label, the CH monogram is midnight blue, and the name CHAMPAGNE CHARLES HEIDSIECK is light gold; on the medallion, the CH monogram is light gold.

Exclusion from trademark

The representation of the bottle in dotted lines is not part of the trademark and is only included to indicate the location of the trademark on the bottle.

TRADEMARK

Index Headings
W

Image Description (Vienna)
- Surfaces or backgrounds covered with repeated geometrical figures or designs
- Surfaces or backgrounds covered with other repeated geometrical figures or designs
- More than two triangles, inside one another
- Several triangles, juxtaposed, joined or intersecting
- Letters presenting a special form of writing
- One letter
- Green
- Red, pink, orange
- Blue
- Violet
- Yellow, gold

Colour Claim
Colour is claimed as a feature of the trade-mark. The upper far left triangle is in the colour 'green'. The upper far right triangle is in the colour 'orange'. The lowest triangle to the left is in the colour ' dark blue'. The lowest triangle to the right is in the colour 'purple'. The upper middle triangle is in the colour 'yellow'. The upper triangle second from the left is in the colour 'light blue'. The upper triangle second from the right is in the colour 'red'. The Applicant claims the colours 'green', 'orange ', 'dark blue', 'purple', 'yellow', 'light blue' and 'red' as essential features of the mark.

GOODS

Paints, varnishes, lacquers; and preservatives used in connection with asset protection and to protect against rust and against deterioration of infrastructure; surveying equipment, namely marine and land seismographs, magnetometers, photogrammetric work stations; devices for measuring the levels of oil and gas, meters used to measure the flow of oil and gas; fire protective clothing; radiation protective clothing, chemical exposure protective clothing; safety clothing for use in the oils and gas industry namely, coveralls for protection against fire and chemicals; fire extinguishers; fire detectors; smoke detectors; computer software and manuals distributed therewith for oil and gas reservoir analysis; computer software for the collection of statistical production data for oil and gas field operations; computer software for project management, namely software to manage documents and software to create and manage timetables, software for use in database management, software for use in the engineering fields; computer software for engineering, engineering design, technical calculations and modelling; computer software for power plant operations and maintenance; computer software for engineering of instrumentation, control and electrical systems for use in relation to oil and gas surveying, exploration, drilling and production; electronic publications namely electronic leaflets, electronic articles, electronic books and electronic magazines; telecommunications apparatus namely, computer hardware, computer cables, fibre optic cables, very small aperture terminal (VSAT), satellite dishes, antenna, namely aerials, two way radios, telephones; computer hardware and computer software for the monitoring and remote control of flow measurement, leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; computer software, hardware and firmware for the collation, input, output, display, analysis, reporting and generation of information data and reports relating to the oil and gas and renewable energy industries; electric power generators; gas operated power generators; wind turbine power generators; pumps and compressors as parts of machines, motors and engines; uninterruptible power supplies; safety systems and safety apparatus, all being for use in the oil, gas and renewable energy industries namely safety valves, safety joints, locks, flow control devices, isolation valves, flotation devices for measuring the levels of oils and gas, monitoring devices for tracking the flow of oil and gas through pipelines and wells, packing devices used in sealing oil and gas wells and pipelines, cables, retainers, stabilizers, seals, plugs, control mechanisms for use in machines, liquid level sensors, pressure sensors, thermal sensors, and temperature sensors, apparatus used to control the flow of oil and gas through wells and pipelines, vibration detectors, anchors; fire alarms; alarms for the detection of inflammable gases; navigation aids, apparatus, instrumentation and systems, namely, lanterns, explosive fog signals, marine luminous safety beacons, marine luminous warning beacons, radar receivers with amplifiers; remote monitoring and control systems comprised of computer hardware and computer software for the monitoring and remote control of fluid flow measurement, gas leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; apparatus comprised of computer hardware and computer software for the monitoring for the remote observation and operation of oil and gas drilling machinery, pipelines and wells, flow meters used to measure the flow of oil and gas through wells and pipelines, thermometers; micro-processor controlled rig-floor monitors which monitor and display various drilling functions with alarms; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity, and composition; page party alarm systems; pneumatic and electrical safety systems comprised of pneumatic pumps , pneumatic hoists, pressure relief valves, safety valves, stop valves, valves for industrial machinery , all for use in the field of oil and gas exploration.

SERVICES

Business and management services in the fields of engineering, procurement, construction management, operational support and facility management for oil and gas production, transportation and processing facilities; business management services for the development of projects from concept to realisation, commissioning and operation; business services relating to the commissioning of projects in the oil and gas industries, automotive industries, consumer products, pulp and paper, pharmaceuticals, chemicals and polymers, refineries and petrochemicals; business management services to bring together groups of individuals, companies, contractors and institutions to facilitate and implement projects; procurement services relating to materials, equipment and services relating to the oil and gas industry; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production; cost estimation services related to the fields of oil and gas exploration and production; business administration services and business management for the compliance of projects with regulations; business administration and business management services for strategic planning and implementation; business services and business management of facilities for process and industrial plants; lifecycle cost analysis and project duration management services for others in the fields of oil and gas exploration and production; provision of business efficiency techniques relating to processes and industrial plants; estimation services (business management) for industrial plants and processes and construction thereof; provision of strategic business planning; provision of cost analysis services for others in the fields of oil and gas exploration and production; business risk assessment services; risk management services; business management advice in the field of project funding; business management advice in the field of financial planning for projects; financial planning advisory services; business risk assessment services; business management assistance for commercial companies; business management of contractors and third parties involved in the construction, implementation, commissioning and operation of engineering projects; procurement for others of engineering services for a third party; personnel management; business management consultancy services; business appraisals; supply chain appraisals for others in the fields of oil and gas exploration and production; supply chain management for others in the fields of oil and gas exploration and production; project cost management and estimation relating to projects in the fields of oil and gas exploration and production; investment advisory services; investment management; business advisory services for the optimisation of process and industrial plant assets and for the planning of resources; asset optimisation and resource planning and technology assessment all being business services for the management of process and industrial plant projects; evaluation of business practices and techniques; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production, namely, procurement of buildings, construction and engineering services, engineering personnel and technical resources; business services for initiating projects for others; business services for facilitating the handover of a project to others; project scheduling services related to projects in the fields of oil and gas exploration and production; support services in the form of business advisory services given to third parties; vendor management services for others in the fields of oil and gas exploration and production; consultancy services in relation to business document management and data management related to projects in the fields of oil and gas exploration and production; data processing services; business management services to facilitate turnkey operations; provision of commercial models (business advice) for process and industrial plant projects; provision of emergency management services; personnel administration support services; personnel recruitment, screening and placement; testing to determine employment skills; payroll services; preparation of payrolls (for others); visa/work permit administration services; taxation consultation advice and consultancy services; provision of business and management services for the reduction of costs, improvement of schedules, management of risk, maximisation of safety and delivery of critical project objectives; retail and wholesale services connected with the sale of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production; building, construction, installation, maintenance, repair, cleaning, commissioning, decommissioning services in the oil and gas and renewable energy industries, automotive industry, consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries and petrochemical plants and installations; engineering project management relating to the design, building, construction, commissioning and engineering operations for industrial and process plants; construction project management services in the fields of oil and gas exploration and production; provision of fire engineering services; civil engineering; construction services in relation to the fields of oil and gas exploration and production; civil engineering consultancy (construction); civil engineering underwater construction services; installation of oil well drilling and pumping equipment; installation of equipment and machinery used in oil exploration; well completion and remedial services; cleaning of oil and gas drilling equipment and facilities; technical consulting services relating to the installation of process and industrial plants in the oil and gas industry; repair of pipelines; civil engineering maintenance services; welding services for the repair of oil and gas exploration and production equipment and machinery; installation, cleaning , repair and maintenance of oil and gas exploration and extraction equipment; oil and gas drilling services; oil and gas well drilling services; rental of oil and gas well drilling equipment; rental of tools and plant equipment for oil and gas well construction and extraction; engineering feasibility and prefeasibility studies, namely providing advice concerning services relating to building, construction and engineering projects in the field of oil and gas exploration and production; management of contractors, consultants and third parties involved in building, construction and commissioning and implementation of engineering projects; building construction services, building construction supervision, building management supervision; maintenance, namely maintenance planning, reliability centered maintenance, maintenance optimization and maintenance management of installations and facilities in the field of oil and gas production and exploration; oilfield surveying; surveying services, namely, oil and gas well surveying, surveying of oil-bearing seams, imaging services in connection with oil and gas exploration, fire engineering surveys, energy surveys and flare surveys, flare surveys associated with oil wells; oil well prospecting and oil field location analysis; support services being construction advice given to owners of initiated building, construction and engineering projects; aircraft maintenance and repair services; turbine repair, maintenance, overhaul and upgrade services; industrial and aviation turbine repair, maintenance, overhaul and upgrade services; electrical appliance installation, maintenance and repair services; installation, maintenance and repair of fire alarm systems and fire extinguishers; fire protection and detection services; installation, maintenance and repair of pumps namely vacuum, suction, rotary and piston pumps for gases, liquefied gases and hydraulic liquids, heat pumps, hydraulic pumps, oil pumps, gas pumps, hydraulic pumps for use in connection with oil wells and pipelines; repair, maintenance, overhaul of equipment for use in oil and gas exploration, drilling, retrieval and production; information services relating to the repair of equipment and machinery for use in oil and gas exploration, drilling, retrieval and production; repair and maintenance of oil and gas drilling equipment and facilities; underwater repair services for the repair of oil and gas wells and pipelines; maintenance and overhaul of compressors, pumps, generators and rotating equipment; provision of integrated solutions for the maintenance, repair, overhaul and upgrade of rotating equipment in the oil and gas and power generation industries; repair and maintenance of pumps, compressors, gear boxes, power turbines, reciprocating engines , diesel engines, internal combustion engines, controls and instrumentation, all for use in the field of oil and gas production and exploration; gas turbine overhaul services; inspection of oil and gas exploration, extraction and production installations prior to repair; rental of machine tools for use in the repair and maintenance of oil and gas exploration, extraction and production installations; rental of air compressors; rental of industrial plants and machine tools for use in the repair of oil and gas exploration, extraction and production installations; project management relating to the repair of oil and gas exploration, extraction and production installations; installation, construction, maintenance, servicing and repair of energy and power generating machinery; installation, maintenance and repair of workplace safety equipment for use in oil and gas field operations, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; transport of machinery used in oil and gas field operations by truck and by rail; transportation of materials, machinery and personnel by air, sea, road and rail; delivery of goods by truck and by air; transportation logistics services, namely, planning and scheduling of drilling rigs and vessels used in oil and gas exploration and production; transmission of oil and gas through pipelines; warehouse planning and management; packaging of articles for transportation; freight transportation by truck, train and/or plane; generation of gas and electricity; generation of electricity ; generation of electricity from thermal sources; rental of power generators; rental of turbines (being generators); rental of gas turbines for power generation; rental of power generating equipment; consultancy services relating to the production of electrical power; rental of air conditioners; rental of air conditioning installations for buildings; printing services; waste recycling; conducting of educational courses and training, namely, engineering and workplace health and safety courses in the field oil and gas field operations; providing workplace safety training in the fields of oil and gas exploration and oil and gas extraction and production; providing on the job safety training for use in onshore and offshore oil and gas exploration, extraction and production environments; the preparation and conduct of training programs for training operators in the use of equipment used in manufacturing and resource industries; the preparation and conduct of training programs in relation to the installation and maintenance of safety equipment used in the repair and maintenance of oil and gas drilling equipment and facilities; provision of training for maintenance planning and scheduling in the fields of oil and gas exploration and production; arranging and conducting conferences, seminars and exhibitions in the field of oil and gas exploration, drilling and production; providing education and instruction services in relation to engineering and workplace health and safety in the field of oil and gas exploration, drilling and production; publication of books and manuals, printed matter and text; production of workplace safety training videotapes and video tape recordings in the field of oil and gas exploration, drilling and production; information relating to training and education in relation to engineering and workplace health and safety in the fields of oil and gas exploration and production provided online from a computer database or the internet; providing online electronic publications (not downloadable) online from databases and the internet; publication of multi-media material online; editing, proof reading and quality control of written material and documents; workplace health and safety document specification; document formatting , amendment and updating, electronic publishing and processing of documents; engineering services namely development and planning of industrial plants, machine plants for power production, heat pumps, energy recovering apparatus, gas plants; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services in the field of environmental compliance; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations and providing technical advice on drilling fluids and drilling fluid use and technical advice on data control, products control, and pressure control; providing technological and engineering knowhow in the field of oil and gas production and exploration; research and design services, namely, engineering modeling and design of drilling processes and operation of facilities used in oil and gas exploration and production; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations, design services relating to the design of engineering projects to maximise value, structural design, mechanical systems design, electrical systems design, control systems design, piping systems design and layout, design of engineering design specifications, all of the aforesaid being in relation to oil and gas exploration, drilling and production; industrial engineering analysis services, namely, cost analysis, risk analysis, being the analysis of risk for others before risk management can be performed, financial feasibility studies, investment analysis, financial cost analysis (lifestyle cost analysis) services; engineering design services in the field of oil and gas exploration and production ; engineering concept development and design services in the field of oil and gas exploration and production; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services, namely structural engineering, process engineering, and design and development of equipment, machinery, computers, computer hardware and software for use in the field oil and gas exploration and production; design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching; exploration and searching for oil and gas; geophysical exploration for oil and gas; providing well pressure testing and control services for others in the oil and gas industries; pressure testing of oil and gas wells; oil and gas well logging and testing; oil and gas exploration and production services; engineering services in the field of oil and gas exploration and production; technical support services for the oil and gas industries; surveying services; surveying services for the oil and gas industries; provision of technical research and support for the oil and gas industries; managing the exploration, production, logistics and operations of gas and oil properties for others; downhole data acquisition; testing of industrial and aviation turbines; provision of workshop facilities for engineering research and design in the field of oil and gas exploration and production; calibration of equipment and machinery used in the field of oil and gas exploration and production; measurement services, namely, providing measurements and downhole telemetry for use in the drilling of oil and gas wells; quality control and auditing services provided for others in the fields of oil and gas exploration, drilling and production; certification services in the field of oil and gas exploration and production; commissioning services in the oil and gas industry namely, environmental health and safety management services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification requirements; providing project management in the oil and gas field, inspection services to ensure equipment and buildings meet health, safety and regulatory standards, performance verification and certification of equipment, systems and buildings in the oil and gas field; oil and gas well environmental analysis for authentication testing; testing of equipment and machinery in the oil and gas field to ensure compliance with health, safety and regulatory standards; technical testing of network systems for use in the oil and gas field; engineering machinery safety testing services; provision of testing and inspection facilities for oil and gas equipment; material testing services; scientific testing services, namely, oil and gas well testing; engineering testing; engineering testing in the oil and gas industry; engineering testing, namely, data analysis services in the oil and gas industry; laboratory testing of materials; industrial testing of engineering projects, namely, production testing services in the oil and gas field; rental, hiring and leasing of equipment and machinery for use in the oil and gas industries; commissioning of oil wells and gas wells; decommissioning of oil wells and gas wells; research in the field of welding; surveying; oil and gas field surveys; provision of facilities for engineering analysis, testing and research in the field of oil and gas exploration and production; environmental protection services; consultancy services relating to environmental planning and compliance services for others and technological assistance services for procuring environmental permits in the fields of oil and gas exploration, drilling and production; design of oil and gas exploration and production facilities which comply with environmental standards and regulations; geological research and exploration services; geological surveys; land surveying; geological prospecting; operation and control of oil and gas exploration and production; engineering drawing services; computer aided graphic design and computer aided mechanical design services in the oil and gas field; technical writing of documents and reports for engineering projects in the oil and gas field; graphic services; engineering design, research and development services for others; technical research for others in the oil and gas field; civil engineering design services; validation services namely assessment services to ensure that a conceptual idea works and the provision of data to validate a concept, all relating to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering validation services; consultancy services provided to others for the appraisal and selection of licensors and licensor coordination in relation to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering design services relating to planning, architecture, civil engineering, mechanical engineering, design engineering, fire engineering, petrochemical engineering and industrial plants; mechanical systems design services; provision of safety advice in relation to engineering and production projects and industrial plants and processes; provision of hazard and operability studies to identify and evaluate problems with equipment and machinery used in oil and gas field operations; design of an industrial control system comprised of computer hardware and software for use in controlling equipment and machinery used in oil and gas field operations; software engineering services; database design and development; design and planning of equipment and plant/building layout used in oil and gas field operations; interior design of plants/ buildings used in oil and gas field operations; engineering and technological assistance for procurement of environmental permits; design of automated handling systems for use in material handling in oil and gas field operations; geotechnical engineering services; environmental engineering services; design and layout of pipelines in the oil and gas industry; design of ventilation , heating and air conditioning systems; instrument and process control engineering services in the oil and gas field; design of engineering project specifications; planning of buildings and infrastructure systems for buildings; engineering design and coordination and consultancy services; industrial plant optimisation services; industrial plant operation services; engineering modelling and process modelling, namely, modelling on a computer of processes and the evaluation of such processes in the oil and gas field; computer modeling services, namely, computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; finite element modelling; finite element analysis services; thermodynamic modelling; oil field analysis services, namely, interpreting laboratory measurements for modelling processes; process simulation and optimization, namely, the creation for others of simulations of processes and the subsequent optimization of those processes in the oil and gas field; process troubleshooting, namely, problem and hazard identification through computerized process modelling in the field of oil and gas exploration and production; computational fluid dynamics engineering services; engineering and technological services for the automation of systems and industrial plants; process engineering services; energy auditing services; seismic analysis services, namely, design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; product design consulting services; managing oil and gas exploration and production plants and sites for safety purposes; conducting technical and engineering due diligence in the oil and gas field; environmental due diligence, namely, the preparation of reports on environmental factors in the oil and gas field; engineering and technical assessment of oil and gas field operations; business evaluation services, namely, benchmarking and technical performance testing in the oil and gas field; inspection and testing of plants, equipment and machinery used in the field of oil exploration and production; consulting in the field of workplace health and safety; consultancy services relating to environmental issues; preparation of technical and engineering operating manuals; engineering and technical development of projects and industrial plants; materials testing and evaluation; engineering operational support services, namely, environmental health and safety management services, systems integration services, installation qualification and technical assessment services, and installation qualification services, namely, the assessment of whether an installation meets qualification requirements; remote well control system design services; conducting engineering feasibility studies in the fields of oil and gas exploration and production, and renewable energy and power generation; conceptual engineering design services; technical commissioning supervision, namely, performing commissioning reviews on oil and gas facilities and structures; technological services for the automation and control of systems; engineering services, namely, the automation and control of computer operating systems in the oil and gas field; instrumentation and control system engineering; engineering services, namely specification, integration and implementation services in the fields of oil and gas exploration and production; certification services, namely, providing certification on completed projects in the fields of oil and gas exploration and production; technical supervision and inspection in the field of oil and gas exploration, drilling, retrieval and production; technical handover services, namely, business services for transferring an initiated project to its owner and business advisory services given to owners of initiated projects by way of technical support; engineering services, namely, the coordination of permit-to-work systems in the fields of oil and gas exploration and production; engineering audit services in the oil and gas field, namely, performing engineering audit reviews for integrity process status; data collection services in the fields of oil and gas exploration and production; document management in the fields of oil and gas exploration and production; technical writing; civil infrastructure engineering and construction; decommissioning, dismantling, reengineering, installation and commissioning of engineering projects and plants; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems, namely computer software and databases for use in relation to project management in the fields of oil and gas exploration and production; providing technical information in the field of oil and gas exploration and production; laser scanning services; oil field surveying; technical surveying; engineering plant design management systems; development of interactive multi-media software; software design services for use in the oil and gas industries; software design services for the design and data management of subsea systems, pipelines and risers; valve engineering services; consulting and project management services for the energy industry, namely, process optimisation, asset integrity management services, and project document control services; provision of computerized engineering management systems in relation to logistical, operational and efficiency in the fields of oil and gas exploration and production, renewable energy and power generation; technical writing; writing computer software; editing of computer programmes; engineering lifecycle integrity services, namely, monitoring, inspecting, assessing, maintaining, repairing and advising in relation to the safe and effective functioning of machinery used in the field of oil and gas exploration and production, renewable energy and power generation; design and development of lifecycle management software; inspection and calibration of safety systems in the field of oil and gas exploration and production, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; consulting in the field of workplace health and safety; risk management consulting services in the field of workplace health and safety; development and management of workplace health and safety programs; consulting in the field of workplace health and safety; conducting hazard and operability studies/hazard identification in the fields of oil and gas exploration and production; business facility and site auditing and third party inspections; environmental and workplace health and safety auditing for regulatory compliance; operational support services namely environmental health and safety management and inspection services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification and legal requirements, information and advisory services relating to the aforesaid services; rental of workplace safety equipment for use in oil and gas field operations; alarm monitoring services; monitoring of security systems; advice and information in the field of oil and gas exploration and production.

GOODS

Paints, varnishes, lacquers; and preservatives used in connection with asset protection and to protect against rust and against deterioration of infrastructure; surveying equipment, namely marine and land seismographs, magnetometers, photogrammetric work stations; devices for measuring the levels of oil and gas, meters used to measure the flow of oil and gas; fire protective clothing; radiation protective clothing, chemical exposure protective clothing; safety clothing for use in the oils and gas industry namely, coveralls for protection against fire and chemicals; fire extinguishers; fire detectors; smoke detectors; computer software and manuals distributed therewith for oil and gas reservoir analysis; computer software for the collection of statistical production data for oil and gas field operations; computer software for project management, namely software to manage documents and software to create and manage timetables, software for use in database management, software for use in the engineering fields; computer software for engineering, engineering design, technical calculations and modelling; computer software for power plant operations and maintenance; computer software for engineering of instrumentation, control and electrical systems for use in relation to oil and gas surveying, exploration, drilling and production; electronic publications namely electronic leaflets, electronic articles, electronic books and electronic magazines; telecommunications apparatus namely, computer hardware, computer cables, fibre optic cables, very small aperture terminal (VSAT), satellite dishes, antenna, namely aerials, two way radios, telephones; computer hardware and computer software for the monitoring and remote control of flow measurement, leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; computer software, hardware and firmware for the collation, input, output, display, analysis, reporting and generation of information data and reports relating to the oil and gas and renewable energy industries; electric power generators; gas operated power generators; wind turbine power generators; pumps and compressors as parts of machines, motors and engines; uninterruptible power supplies; safety systems and safety apparatus, all being for use in the oil, gas and renewable energy industries namely safety valves, safety joints, locks, flow control devices, isolation valves, flotation devices for measuring the levels of oils and gas, monitoring devices for tracking the flow of oil and gas through pipelines and wells, packing devices used in sealing oil and gas wells and pipelines, cables, retainers, stabilizers, seals, plugs, control mechanisms for use in machines, liquid level sensors, pressure sensors, thermal sensors, and temperature sensors, apparatus used to control the flow of oil and gas through wells and pipelines, vibration detectors, anchors; fire alarms; alarms for the detection of inflammable gases; navigation aids, apparatus, instrumentation and systems, namely, lanterns, explosive fog signals, marine luminous safety beacons, marine luminous warning beacons, radar receivers with amplifiers; remote monitoring and control systems comprised of computer hardware and computer software for the monitoring and remote control of fluid flow measurement, gas leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; apparatus comprised of computer hardware and computer software for the monitoring for the remote observation and operation of oil and gas drilling machinery, pipelines and wells, flow meters used to measure the flow of oil and gas through wells and pipelines, thermometers; micro-processor controlled rig-floor monitors which monitor and display various drilling functions with alarms; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity, and composition; page party alarm systems; pneumatic and electrical safety systems comprised of pneumatic pumps , pneumatic hoists, pressure relief valves, safety valves, stop valves, valves for industrial machinery , all for use in the field of oil and gas exploration.

SERVICES

Business and management services in the fields of engineering, procurement, construction management, operational support and facility management for oil and gas production, transportation and processing facilities; business management services for the development of projects from concept to realisation, commissioning and operation; business services relating to the commissioning of projects in the oil and gas industries, automotive industries, consumer products, pulp and paper, pharmaceuticals, chemicals and polymers, refineries and petrochemicals; business management services to bring together groups of individuals, companies, contractors and institutions to facilitate and implement projects; procurement services relating to materials, equipment and services relating to the oil and gas industry; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production; cost estimation services related to the fields of oil and gas exploration and production; business administration services and business management for the compliance of projects with regulations; business administration and business management services for strategic planning and implementation; business services and business management of facilities for process and industrial plants; lifecycle cost analysis and project duration management services for others in the fields of oil and gas exploration and production; provision of business efficiency techniques relating to processes and industrial plants; estimation services (business management) for industrial plants and processes and construction thereof; provision of strategic business planning; provision of cost analysis services for others in the fields of oil and gas exploration and production; business risk assessment services; risk management services; business management advice in the field of project funding; business management advice in the field of financial planning for projects; financial planning advisory services; business risk assessment services; business management assistance for commercial companies; business management of contractors and third parties involved in the construction, implementation, commissioning and operation of engineering projects; procurement for others of engineering services for a third party; personnel management; business management consultancy services; business appraisals; supply chain appraisals for others in the fields of oil and gas exploration and production; supply chain management for others in the fields of oil and gas exploration and production; project cost management and estimation relating to projects in the fields of oil and gas exploration and production; investment advisory services; investment management; business advisory services for the optimisation of process and industrial plant assets and for the planning of resources; asset optimisation and resource planning and technology assessment all being business services for the management of process and industrial plant projects; evaluation of business practices and techniques; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production, namely, procurement of buildings, construction and engineering services, engineering personnel and technical resources; business services for initiating projects for others; business services for facilitating the handover of a project to others; project scheduling services related to projects in the fields of oil and gas exploration and production; support services in the form of business advisory services given to third parties; vendor management services for others in the fields of oil and gas exploration and production; consultancy services in relation to business document management and data management related to projects in the fields of oil and gas exploration and production; data processing services; business management services to facilitate turnkey operations; provision of commercial models (business advice) for process and industrial plant projects; provision of emergency management services; personnel administration support services; personnel recruitment, screening and placement; testing to determine employment skills; payroll services; preparation of payrolls (for others); visa/work permit administration services; taxation consultation advice and consultancy services; provision of business and management services for the reduction of costs, improvement of schedules, management of risk, maximisation of safety and delivery of critical project objectives; retail and wholesale services connected with the sale of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production; building, construction, installation, maintenance, repair, cleaning, commissioning, decommissioning services in the oil and gas and renewable energy industries, automotive industry, consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries and petrochemical plants and installations; engineering project management relating to the design, building, construction, commissioning and engineering operations for industrial and process plants; construction project management services in the fields of oil and gas exploration and production; provision of fire engineering services; civil engineering; construction services in relation to the fields of oil and gas exploration and production; civil engineering consultancy (construction); civil engineering underwater construction services; installation of oil well drilling and pumping equipment; installation of equipment and machinery used in oil exploration; well completion and remedial services; cleaning of oil and gas drilling equipment and facilities; technical consulting services relating to the installation of process and industrial plants in the oil and gas industry; repair of pipelines; civil engineering maintenance services; welding services for the repair of oil and gas exploration and production equipment and machinery; installation, cleaning , repair and maintenance of oil and gas exploration and extraction equipment; oil and gas drilling services; oil and gas well drilling services; rental of oil and gas well drilling equipment; rental of tools and plant equipment for oil and gas well construction and extraction; engineering feasibility and prefeasibility studies, namely providing advice concerning services relating to building, construction and engineering projects in the field of oil and gas exploration and production; management of contractors, consultants and third parties involved in building, construction and commissioning and implementation of engineering projects; building construction services, building construction supervision, building management supervision; maintenance, namely maintenance planning, reliability centered maintenance, maintenance optimization and maintenance management of installations and facilities in the field of oil and gas production and exploration; oilfield surveying; surveying services, namely, oil and gas well surveying, surveying of oil-bearing seams, imaging services in connection with oil and gas exploration, fire engineering surveys, energy surveys and flare surveys, flare surveys associated with oil wells; oil well prospecting and oil field location analysis; support services being construction advice given to owners of initiated building, construction and engineering projects; aircraft maintenance and repair services; turbine repair, maintenance, overhaul and upgrade services; industrial and aviation turbine repair, maintenance, overhaul and upgrade services; electrical appliance installation, maintenance and repair services; installation, maintenance and repair of fire alarm systems and fire extinguishers; fire protection and detection services; installation, maintenance and repair of pumps namely vacuum, suction, rotary and piston pumps for gases, liquefied gases and hydraulic liquids, heat pumps, hydraulic pumps, oil pumps, gas pumps, hydraulic pumps for use in connection with oil wells and pipelines; repair, maintenance, overhaul of equipment for use in oil and gas exploration, drilling, retrieval and production; information services relating to the repair of equipment and machinery for use in oil and gas exploration, drilling, retrieval and production; repair and maintenance of oil and gas drilling equipment and facilities; underwater repair services for the repair of oil and gas wells and pipelines; maintenance and overhaul of compressors, pumps, generators and rotating equipment; provision of integrated solutions for the maintenance, repair, overhaul and upgrade of rotating equipment in the oil and gas and power generation industries; repair and maintenance of pumps, compressors, gear boxes, power turbines, reciprocating engines , diesel engines, internal combustion engines, controls and instrumentation, all for use in the field of oil and gas production and exploration; gas turbine overhaul services; inspection of oil and gas exploration, extraction and production installations prior to repair; rental of machine tools for use in the repair and maintenance of oil and gas exploration, extraction and production installations; rental of air compressors; rental of industrial plants and machine tools for use in the repair of oil and gas exploration, extraction and production installations; project management relating to the repair of oil and gas exploration, extraction and production installations; installation, construction, maintenance, servicing and repair of energy and power generating machinery; installation, maintenance and repair of workplace safety equipment for use in oil and gas field operations, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; transport of machinery used in oil and gas field operations by truck and by rail; transportation of materials, machinery and personnel by air, sea, road and rail; delivery of goods by truck and by air; transportation logistics services, namely, planning and scheduling of drilling rigs and vessels used in oil and gas exploration and production; transmission of oil and gas through pipelines; warehouse planning and management; packaging of articles for transportation; freight transportation by truck, train and/or plane; generation of gas and electricity; generation of electricity ; generation of electricity from thermal sources; rental of power generators; rental of turbines (being generators); rental of gas turbines for power generation; rental of power generating equipment; consultancy services relating to the production of electrical power; rental of air conditioners; rental of air conditioning installations for buildings; printing services; waste recycling; conducting of educational courses and training, namely, engineering and workplace health and safety courses in the field oil and gas field operations; providing workplace safety training in the fields of oil and gas exploration and oil and gas extraction and production; providing on the job safety training for use in onshore and offshore oil and gas exploration, extraction and production environments; the preparation and conduct of training programs for training operators in the use of equipment used in manufacturing and resource industries; the preparation and conduct of training programs in relation to the installation and maintenance of safety equipment used in the repair and maintenance of oil and gas drilling equipment and facilities; provision of training for maintenance planning and scheduling in the fields of oil and gas exploration and production; arranging and conducting conferences, seminars and exhibitions in the field of oil and gas exploration, drilling and production; providing education and instruction services in relation to engineering and workplace health and safety in the field of oil and gas exploration, drilling and production; publication of books and manuals, printed matter and text; production of workplace safety training videotapes and video tape recordings in the field of oil and gas exploration, drilling and production; information relating to training and education in relation to engineering and workplace health and safety in the fields of oil and gas exploration and production provided online from a computer database or the internet; providing online electronic publications (not downloadable) online from databases and the internet; publication of multi-media material online; editing, proof reading and quality control of written material and documents; workplace health and safety document specification; document formatting , amendment and updating, electronic publishing and processing of documents; engineering services namely development and planning of industrial plants, machine plants for power production, heat pumps, energy recovering apparatus, gas plants; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services in the field of environmental compliance; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations and providing technical advice on drilling fluids and drilling fluid use and technical advice on data control, products control, and pressure control; providing technological and engineering knowhow in the field of oil and gas production and exploration; research and design services, namely, engineering modeling and design of drilling processes and operation of facilities used in oil and gas exploration and production; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations, design services relating to the design of engineering projects to maximise value, structural design, mechanical systems design, electrical systems design, control systems design, piping systems design and layout, design of engineering design specifications, all of the aforesaid being in relation to oil and gas exploration, drilling and production; industrial engineering analysis services, namely, cost analysis, risk analysis, being the analysis of risk for others before risk management can be performed, financial feasibility studies, investment analysis, financial cost analysis (lifestyle cost analysis) services; engineering design services in the field of oil and gas exploration and production ; engineering concept development and design services in the field of oil and gas exploration and production; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services, namely structural engineering, process engineering, and design and development of equipment, machinery, computers, computer hardware and software for use in the field oil and gas exploration and production; design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching; exploration and searching for oil and gas; geophysical exploration for oil and gas; providing well pressure testing and control services for others in the oil and gas industries; pressure testing of oil and gas wells; oil and gas well logging and testing; oil and gas exploration and production services; engineering services in the field of oil and gas exploration and production; technical support services for the oil and gas industries; surveying services; surveying services for the oil and gas industries; provision of technical research and support for the oil and gas industries; managing the exploration, production, logistics and operations of gas and oil properties for others; downhole data acquisition; testing of industrial and aviation turbines; provision of workshop facilities for engineering research and design in the field of oil and gas exploration and production; calibration of equipment and machinery used in the field of oil and gas exploration and production; measurement services, namely, providing measurements and downhole telemetry for use in the drilling of oil and gas wells; quality control and auditing services provided for others in the fields of oil and gas exploration, drilling and production; certification services in the field of oil and gas exploration and production; commissioning services in the oil and gas industry namely, environmental health and safety management services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification requirements; providing project management in the oil and gas field, inspection services to ensure equipment and buildings meet health, safety and regulatory standards, performance verification and certification of equipment, systems and buildings in the oil and gas field; oil and gas well environmental analysis for authentication testing; testing of equipment and machinery in the oil and gas field to ensure compliance with health, safety and regulatory standards; technical testing of network systems for use in the oil and gas field; engineering machinery safety testing services; provision of testing and inspection facilities for oil and gas equipment; material testing services; scientific testing services, namely, oil and gas well testing; engineering testing; engineering testing in the oil and gas industry; engineering testing, namely, data analysis services in the oil and gas industry; laboratory testing of materials; industrial testing of engineering projects, namely, production testing services in the oil and gas field; rental, hiring and leasing of equipment and machinery for use in the oil and gas industries; commissioning of oil wells and gas wells; decommissioning of oil wells and gas wells; research in the field of welding; surveying; oil and gas field surveys; provision of facilities for engineering analysis, testing and research in the field of oil and gas exploration and production; environmental protection services; consultancy services relating to environmental planning and compliance services for others and technological assistance services for procuring environmental permits in the fields of oil and gas exploration, drilling and production; design of oil and gas exploration and production facilities which comply with environmental standards and regulations; geological research and exploration services; geological surveys; land surveying; geological prospecting; operation and control of oil and gas exploration and production; engineering drawing services; computer aided graphic design and computer aided mechanical design services in the oil and gas field; technical writing of documents and reports for engineering projects in the oil and gas field; graphic services; engineering design, research and development services for others; technical research for others in the oil and gas field; civil engineering design services; validation services namely assessment services to ensure that a conceptual idea works and the provision of data to validate a concept, all relating to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering validation services; consultancy services provided to other for the appraisal and selection of licensors and licensor coordination in relation to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering design services relating to planning, architecture, civil engineering, mechanical engineering, design engineering, fire engineering, petrochemical engineering and industrial plants; mechanical systems design services; provision of safety advice in relation to engineering and production projects and industrial plants and processes; provision of hazard and operability studies to identify and evaluate problems with equipment and machinery used in oil and gas field operations; design of an industrial control system comprised of computer hardware and software for use in controlling equipment and machinery used in oil and gas field operations; software engineering services; database design and development; design and planning of equipment and plant/building layout used in oil and gas field operations; interior design of plants/buildings used in oil and gas field operations; engineering and technological assistance for procurement of environmental permits; design of automated handling systems for use in material handling in oil and gas field operations; geotechnical engineering services; environmental engineering services; design and layout of pipelines in the oil and gas industry; design of ventilation, heating and air conditioning systems; instrument and process control engineering services in the oil and gas field; design of engineering project specifications; planning of buildings and infrastructure systems for buildings; engineering design and coordination and consultancy services; industrial plant optimisation services; industrial plant operation services; engineering modelling and process modelling, namely, modelling on a computer of processes and the evaluation of such processes in the oil and gas field; computer modeling services, namely, computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; finite element modelling; finite element analysis services; thermodynamic modelling; oil field analysis services, namely, interpreting laboratory measurements for modelling processes; process simulation and optimization, namely, the creation for others of simulations of processes and the subsequent optimization of those processes in the oil and gas field; process troubleshooting, namely, problem and hazard identification through computerized process modelling in the field of oil and gas exploration and production; computational fluid dynamics engineering services; engineering and technological services for the automation of systems and industrial plants; process engineering services; energy auditing services; seismic analysis services, namely, design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; product design consulting services; managing oil and gas exploration and production plants and sites for safety purposes; conducting technical and engineering due diligence in the oil and gas field; environmental due diligence, namely, the preparation of reports on environmental factors in the oil and gas field; engineering and technical assessment of oil and gas field operations; business evaluation services, namely, benchmarking and technical performance testing in the oil and gas field; inspection and testing of plants, equipment and machinery used in the field of oil exploration and production; consulting in the field of workplace health and safety;

consultancy services relating to environmental issues; preparation of technical and engineering operating manuals; engineering and technical development of projects and industrial plants; materials testing and evaluation; engineering operational support services, namely, environmental health and safety management services, systems integration services, installation qualification and technical assessment services, and installation qualification services, namely, the assessment of whether an installation meets qualification requirements; remote well control system design services; conducting engineering feasibility studies in the fields of oil and gas exploration and production, and renewable energy and power generation; conceptual engineering design services; technical commissioning supervision, namely, performing commissioning reviews on oil and gas facilities and structures; technological services for the automation and control of systems; engineering services, namely, the automation and control of computer operating systems in the oil and gas field; instrumentation and control system engineering; engineering services, namely specification, integration and implementation services in the fields of oil and gas exploration and production; certification services, namely, providing certification on completed projects in the fields of oil and gas exploration and production; technical supervision and inspection in the field of oil and gas exploration, drilling, retrieval and production; technical handover services, namely, business services for transferring an initiated project to its owner and business advisory services given to owners of initiated projects by way of technical support; engineering services, namely, the coordination of permit-to-work systems in the fields of oil and gas exploration and production; engineering audit services in the oil and gas field, namely, performing engineering audit reviews for integrity process status; data collection services in the fields of oil and gas exploration and production; document management in the fields of oil and gas exploration and production; technical writing; civil infrastructure engineering and construction; decommissioning, dismantling, reengineering, installation and commissioning of engineering projects and plants; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems, namely computer software and databases for use in relation to project management in the fields of oil and gas exploration and production; providing technical information in the field of oil and gas exploration and production; laser scanning services; oil field surveying; technical surveying; engineering plant design management systems; development of interactive multi-media software; software design services for use in the oil and gas industries; software design services for the design and data management of subsea systems, pipelines and risers; valve engineering services; consulting and project management services for the energy industry, namely, process optimisation, asset integrity management services, and project document control services; provision of computerized engineering management systems in relation to logistical, operational and efficiency in the fields of oil and gas exploration and production, renewable energy and power generation; technical writing; writing computer software; editing of computer programmes; engineering lifecycle integrity services, namely, monitoring, inspecting, assessing, maintaining, repairing and advising in relation to the safe and effective functioning of machinery used in the field of oil and gas exploration and production, renewable energy and power generation; design and development of lifecycle management software; inspection and calibration of safety systems in the field of oil and gas exploration and production, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; consulting in the field of workplace health and safety; risk management consulting services in the field of workplace health and safety; development and management of workplace health and safety programs; consulting in the field of workplace health and safety; conducting hazard and operability studies/hazard identification in the fields of oil and gas exploration and production; business facility and site auditing and third party inspections; environmental and workplace health and safety auditing for regulatory compliance; operational support services namely environmental health and safety management and inspection services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification and legal requirements, information and advisory services relating to the aforesaid services; rental of workplace safety equipment for use in oil and gas field operations; alarm monitoring services; monitoring of security systems; advice and information in the field of oil and gas exploration and production.

CLAIMS

Priority Filing Date: UNITED KINGDOM June 05, 2014, Application No: UK00003058602 in association with the same kind of goods and in association with the same kind of services. Used in UNITED KINGDOM on goods and on services. Registered in or for UNITED KINGDOM on October 10, 2014 under No. UK00003058602 on goods and on services. Proposed Use in CANADA on goods and on services

Application Number 1,684,791 **Filing Date** 2014-07-11

PAVEMETRICS

GOODS

(1) Electronic and optical apparatuses and instruments, namely sensors for measuring light depth or light spectrum, for use in the detection of objects or persons in connection with the inspection and management of transportation infrastructures, namely proximity sensors, opto-electronic sensors, laser sensors, photoelectric sensors; objects and persons detection systems consisting of electronic contour and position verification sensors; objects and persons detection systems consisting of cameras used in conjunction with projectors for the inspection of transportation infrastructures.

(2) Computer software, mobile computer software, downloadable computer software and computer application software for mobile phones, phablets and tablets, all designed for collection and analysis of data for the inspection and management of transportation infrastructures.

SERVICES

Technical consultation in the fields of optical, electronic, and electrical engineering.

CLAIMS

Used in CANADA since at least as early as November 2009 on goods and on services.

SERVICES

(1) Providing safety and certification courses, namely, working at heights (construction), fall arrest and fall prevention (industrial and commercial), forklift certification (Classes 1 -7), telehandler certification (rough terrain variable reach forklift), confined space safety training, WHMIS training/ WHMIS review, worker/supervisor safety awareness, construction propane heater certification (PTI 400-01 Under 400,000 BTU), propane torch certification (PTI 400-08 under 400,000 BTU), hot tar bitumen kettle operator Certification (PTI 400-05), propane pump attendant certification (100-01), aerial lift operator certification and asbestos awareness training (up to Type 2).

(2) Supply and delivery of propane and bulk tank installation installed according to all relevant regulations for tank support, piping and clearance distances from buildings and property lines for temporary or seasonal usage by contractors during the construction project.

(3) Service and supply for residential, commercial, construction heat and roofing supply of propane and related products, namely, heaters, torches, fill and refill of bulk propane containers from 20lb bottles to 420lb bottles, pigtails to connect two or more propane bottles in series, propane system components, namely, regulators, o-rings, hoses, fittings and installation of the same, various fall arrest equipment, namely, roofing and general height safety, bumpline components, namely, roofing operations, engineered guardrail systems and fencing for roofing and height safety, various personal safety equipment for handling of propane products, leak test chemicals for propane connection, signage and engineered fence panels for compounds for propane storage.

(4) Sale and rental of industrial and construction equipment and related tools and supplies, namely, abrasives, blades and bits, rubber boots, work boots, burlap, concrete products, namely, calcium, cements, cures, grouts, hardeners, sealers, diamond products, extension cords, fasteners, fence, safety, security, crowd control, filter cloth and silt fence, forming accessories, namely, clamps, forming tubes, ties, wedges, hand tools, namely, bars, brooms, brushes, hammers, levels, shovels, sledges, trowels, ladders, nails, marking paint, polyethylene, power tools and accessories, propane , rain-suits, release powder for stamped concrete, rope, safety supplies, namely, clothing, fall protection, first aid kits, gloves, hats, service parts, sewer and watermain accessories, namely, concrete brick and block, moduloc, shims, steps, signs, slings, chokers, tie downs, steel stakes, wood stakes, survey supplies and equipment, tarpaulins, insulated blankets, traffic safety, namely, barrels, delineators, flashers, signs, vests, wire products, namely, loop ties, mesh, tie wire, wheelbarrows.

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant	**Representative for Service**
John Wood Group P.L.C., John Wood House, Greenwell Road, East Tullos, Aberdeen, AB12 3AX, UNITED KINGDOM	MARKS & CLERK 180 KENT STREET, SUITE 1900, P.O. BOX 957, STATION B, OTTAWA, ONTARIO, K1P5S7

TRADEMARK

WOOD GROUP

GOODS

(1) Paints, varnishes, lacquers; and preservatives used in connection with asset protection and to protect against rust and against deterioration of infrastructure; computer software, hardware and firmware for the collation, input, output, display, analysis, reporting and generation of information data and reports relating to the oil and gas and renewable energy industries; electric power generators; gas operated power generators; wind turbine power generators; pumps and compressors as parts of machines, motors and engines; uninterruptible power supplies; navigation aids, apparatus, instrumentation and systems, namely, lanterns, explosive fog signals, marine luminous safety beacons, marine luminous warning beacons, radar receivers with amplifiers; remote monitoring and control systems comprised of computer hardware and computer software for the monitoring and remote control of fluid flow measurement, gas leak detection, alarm reporting , pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; apparatus comprised of computer hardware and computer software for the monitoring for the remote observation and operation of oil and gas drilling machinery, pipelines and wells, flow meters used to measure the flow of oil and gas through wells and pipelines, thermometers; micro-processor controlled rig-floor monitors which monitor and display various drilling functions with alarms; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity , and composition; page party alarm systems.

(2) Surveying equipment, namely marine and land seismographs, magnetometers, photogrammetric work stations; devices for measuring the levels of oil and gas, meters used to measure the flow of oil and gas; fire protective clothing; radiation protective clothing, chemical exposure protective clothing; safety clothing for use in the oils and gas industry namely, coveralls for protection against fire and chemicals; fire extinguishers; fire detectors; smoke detectors; computer software and manuals distributed therewith for oil and gas reservoir analysis; computer software for the collection of statistical production data for oil and gas field operations; computer software for project management, namely software to manage documents and software to create and manage timetables, software for use in database management, software for use in the engineering fields; computer software for engineering, engineering design, technical calculations and modelling; computer software for power plant operations and maintenance; computer software for engineering of instrumentation, control and electrical systems for use in relation to oil and gas surveying, exploration, drilling and production; electronic publications namely electronic leaflets, electronic articles, electronic books and electronic magazines; telecommunications apparatus namely, computer hardware, computer cables, fibre optic cables, very small aperture terminal (VSAT), satellite dishes, antenna, namely aerials, two way radios, telephones; computer hardware and computer software for the monitoring and remote control of flow measurement, leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; safety systems and safety apparatus, all being for use in the oil, gas and renewable energy industries namely safety valves, safety joints, locks, flow control devices, isolation valves, flotation devices for measuring the levels of oils and gas, monitoring devices for tracking the flow of oil and gas through pipelines and wells, packing devices used in sealing oil and gas wells and pipelines, cables, retainers, stabilizers, seals, plugs, control mechanisms for use in machines, liquid level sensors, pressure sensors, thermal sensors, and temperature sensors, apparatus used to control the flow of oil and gas through wells and pipelines, vibration detectors, anchors; fire alarms; alarms for the detection of inflammable gases; pneumatic and electrical safety systems comprised of pneumatic pumps, pneumatic hoists, pressure relief valves, safety valves, stop valves, valves for industrial machinery, all for use in the field of oil and gas exploration.

SERVICES

(1) Business and management services in the fields of engineering, procurement, construction management, operational support and facility management for oil and gas production, transportation and processing facilities; business management services for the development of projects from concept to realisation, commissioning and operation; business services relating to the commissioning of projects in the oil and gas industries, automotive industries, consumer products, pulp and paper, pharmaceuticals, chemicals and polymers, refineries and petrochemicals; business management services to bring together groups of individuals, companies, contractors and institutions to facilitate and implement projects; procurement services relating to materials, equipment and services relating to the oil and gas industry; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production; cost estimation services related to the fields of oil and gas exploration and production; business administration services and business management for the compliance of projects with regulations; business administration and business management services for strategic planning and implementation; business services and business management of facilities for process and industrial plants; lifecycle cost analysis and project duration management services for others in the fields of oil and gas exploration and production; provision of business efficiency techniques relating to processes and industrial plants; estimation services (business management) for industrial plants and processes and construction thereof; provision of strategic business planning; provision of cost analysis services for others in the fields of oil and gas exploration and production; business risk assessment services; risk management services; business management advice in the field of project funding; business management advice in the field of financial planning for projects; financial planning advisory services; business risk assessment services; business management assistance for commercial companies; business management of contractors and third parties involved in the construction, implementation, commissioning and operation of engineering projects; procurement for others of engineering services for a third party; personnel management; business management consultancy services; business appraisals; supply chain appraisals for others in the fields of oil and gas exploration and production; supply chain management for others in the fields of oil and gas exploration and production; project cost management and estimation relating to projects in the fields of oil and gas exploration and production; investment advisory services; investment management; business advisory services for the optimisation of process and industrial plant assets and for the planning of resources; asset optimisation and resource planning and technology assessment all being business services for the management of process and industrial plant projects; evaluation of business practices and techniques; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production, namely, procurement of buildings, construction and engineering services, engineering personnel and technical resources; business services for initiating projects for others; business services for facilitating the handover of a project to others; project scheduling services related to projects in the fields of oil and gas exploration and production; support services in the form of business advisory services given to third parties; vendor management services for others in the fields of oil and gas exploration and production; consultancy services in relation to business document management and data management related to projects in the fields of oil and gas exploration and production; data processing services; business management services to facilitate turnkey operations; provision of commercial models (business advice) for process and industrial plant projects; provision of emergency management services; personnel administration support services; personnel recruitment, screening and placement; testing to determine employment skills; payroll services; preparation of payrolls (for others); visa/work permit administration services; taxation consultation advice and consultancy services; provision of business and management services for the reduction

of costs, improvement of schedules, management of risk, maximisation of safety and delivery of critical project objectives; retail and wholesale services connected with the sale of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production; rental of oil and gas well drilling equipment; rental of tools and plant equipment for oil and gas well construction and extraction; rental of machine tools for use in the repair and maintenance of oil and gas exploration, extraction and production installations; rental of air compressors; rental of industrial plants and machine tools for use in the repair of oil and gas exploration, extraction and production installations; generation of gas and electricity; generation of electricity; generation of electricity from thermal sources; rental of power generators; rental of turbines (being generators); rental of gas turbines for power generation; rental of power generating equipment; consultancy services relating to the production of electrical power; rental of air conditioners; rental of air conditioning installations for buildings; printing services; waste recycling; conducting of educational courses and training, namely, engineering and workplace health and safety courses in the fields oil and gas field operations; providing workplace safety training in the fields of oil and gas exploration and oil and gas extraction and production; providing on the job safety training for use in onshore and offshore oil and gas exploration, extraction and production environments; the preparation and conduct of training programs for training operators in the use of equipment used in manufacturing and resource industries; the preparation and conduct of training programs in relation to the installation and maintenance of safety equipment used in the repair and maintenance of oil and gas drilling equipment and facilities; provision of training for maintenance planning and scheduling in the fields of oil and gas exploration and production; arranging and conducting conferences, seminars and exhibitions in the field of oil and gas exploration, drilling and production; providing education and instruction services in relation to engineering and workplace health and safety in the field of oil and gas exploration, drilling and production; publication of books and manuals, printed matter and text; production of workplace safety training videotapes and video tape recordings in the field of oil and gas exploration, drilling and production; information relating to training and education in relation to engineering and workplace health and safety in the fields of oil and gas exploration and production provided online from a computer database or the internet; providing online electronic publications (not downloadable) online from databases and the internet; publication of multi-media material online; editing, proof reading and quality control of written material and documents; workplace health and safety document specification; document formatting , amendment and updating, electronic publishing and processing of documents; consulting in the field of workplace health and safety; risk management consulting services in the field of workplace health and safety; development and management of workplace health and safety programs; consulting in the field of workplace health and safety; conducting hazard and operability studies/ hazard identification in the fields of oil and gas exploration and production; business facility and site auditing and third party inspections; environmental and workplace health and safety auditing for regulatory compliance; operational support services namely environmental health and safety management and inspection services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification and legal requirements, information and advisory services relating to the aforesaid services; rental of workplace safety equipment for use in oil and gas field operations; alarm monitoring services; monitoring of security systems.

(2) Building and construction services, repair and maintenance of oil and gas drilling equipment and facilities, business services relating to the commissioning of projects, facility shut-downs being the decommissioning of buildings, structures and installations all being in relation to oil and gas exploration, drilling and production facilities; project management services for others relating to the

design and construction of industrial and process plants and engineering services namely development and planning of industrial and process plants; construction project management services in the fields of oil and gas exploration and production; provision of fire engineering services; civil engineering; construction services in relation to the fields of oil and gas exploration and production; civil engineering consultancy (construction); civil engineering underwater construction services; installation of oil well drilling and pumping equipment; installation of equipment and machinery used in oil exploration; well completion and remedial services; cleaning of oil and gas drilling equipment and facilities; technical consulting services relating to the installation of process and industrial plants in the oil and gas industry; repair of pipelines; civil engineering maintenance services; welding services for the repair of oil and gas exploration and production equipment and machinery; installation, cleaning, repair and maintenance of oil and gas exploration and extraction equipment; oil and gas drilling services; oil and gas well drilling services; engineering feasibility and prefeasibility studies, namely providing advice concerning services relating to building, construction and engineering projects in the field of oil and gas exploration and production; management of contractors, consultants and third parties involved in building, construction and commissioning and implementation of engineering projects; building construction services, building construction supervision, building management supervision; maintenance, namely maintenance planning, reliability centered maintenance, maintenance optimization and maintenance management of installations and facilities in the field of oil and gas production and exploration; oilfield surveying; surveying services, namely, oil and gas well surveying, surveying of oil-bearing seams, imaging services in connection with oil and gas exploration, fire engineering surveys, energy surveys and flare surveys, flare surveys associated with oil wells; oil well prospecting and oil field location analysis; support services being construction advice given to owners of initiated building, construction and engineering projects; aircraft maintenance and repair services; turbine repair, maintenance, overhaul and upgrade services; industrial and aviation turbine repair, maintenance, overhaul and upgrade services; electrical appliance installation, maintenance and repair services; installation, maintenance and repair of fire alarm systems and fire extinguishers; fire protection and detection services; installation, maintenance and repair of pumps namely vacuum, suction, rotary and piston pumps for gases, liquefied gases and hydraulic liquids, heat pumps, hydraulic pumps, oil pumps, gas pumps, hydraulic pumps for use in connection with oil wells and pipelines; repair, maintenance, overhaul of equipment for use in oil and gas exploration, drilling, retrieval and production; information services relating to the repair of equipment and machinery for use in oil and gas exploration, drilling, retrieval and production; repair and maintenance of oil and gas drilling equipment and facilities; underwater repair services for the repair of oil and gas wells and pipelines; maintenance and overhaul of compressors, pumps, generators and rotating equipment; provision of integrated solutions for the maintenance, repair, overhaul and upgrade of rotating equipment in the oil and gas and power generation industries; repair and maintenance of pumps, compressors, gear boxes, power turbines, reciprocating engines , diesel engines, internal combustion engines, controls and instrumentation, all for use in the field of oil and gas production and exploration; gas turbine overhaul services; inspection of oil and gas exploration, extraction and production installations prior to repair; project management relating to the repair of oil and gas exploration, extraction and production installations; installation, construction, maintenance, servicing and repair of energy and power generating machinery; installation, maintenance and repair of workplace safety equipment for use in oil and gas field operations, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production; transport of machinery used in oil and gas field operations by truck and by rail; transportation of materials, machinery and personnel by air, sea, road and rail; delivery of goods by truck and by air; transportation logistics services, namely, planning and scheduling of drilling rigs and vessels used in oil and gas exploration and production; transmission of oil and gas through pipelines; warehouse planning and management; packaging of articles for transportation; freight transportation by truck, train and/or plane; engineering services namely development and planning of industrial plants, machine plants for power production, heat pumps, energy recovering apparatus, gas plants; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services in the field of environmental compliance; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations and providing technical advice on drilling fluids and drilling fluid use and technical advice on data control, products control, and pressure control; providing technological and engineering knowhow in the field of oil and gas production and exploration; research and design services, namely, engineering modeling and design of drilling processes and operation of facilities used in oil and gas exploration and production; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations, design services relating to the design of engineering projects to maximise value, structural design, mechanical systems design, electrical systems design, control systems design, piping systems design and layout, design of engineering design specifications, all of the aforesaid being in relation to oil and gas exploration, drilling and production; industrial engineering analysis services, namely, cost analysis, risk analysis , being the analysis of risk for others before risk management can be performed, financial feasibility studies, investment analysis, financial cost analysis (lifestyle cost analysis) services; engineering design services in the field of oil and gas exploration and production; engineering concept development and design services in the field of oil and gas exploration and production; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services, namely structural engineering, process engineering, and design and development of equipment, machinery, computers, computer hardware and software for use in the field oil and gas exploration and production; design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching; exploration and searching for oil and gas; geophysical exploration for oil and gas; providing well pressure testing and control services for others in the oil and gas industries; pressure testing of oil and gas wells; oil and gas well logging and testing; oil and gas exploration and production services; engineering services in the field of oil and gas exploration and production; technical support services for the oil and gas industries; surveying services; surveying services for the oil and gas industries; provision of technical research and support for the oil and gas industries; managing the exploration, production, logistics and operations of gas and oil properties for others; downhole data acquisition; testing of industrial and aviation turbines; provision of workshop facilities for engineering research and design in the field of oil and gas exploration and production; calibration of equipment and machinery used in the field of oil and gas exploration and production; measurement services, namely, providing measurements and downhole telemetry for use in the drilling of oil and gas wells; quality control and auditing services provided for others in the fields of oil and gas exploration, drilling and production; certification services in the field of oil and gas exploration and production; commissioning services in the oil and gas industry namely, environmental health and safety management services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification requirements, providing project management in the oil and gas field, inspection services to ensure equipment and buildings meet health, safety and regulatory standards, performance verification and certification of equipment, systems and buildings in the oil and gas field; oil and gas well environmental analysis for authentication testing; testing of equipment and machinery in the oil and gas field to ensure compliance with health, safety and regulatory standards; technical testing of network systems for use in the oil and gas field; engineering machinery safety testing services; provision of testing and inspection facilities for oil and gas equipment; material testing services; scientific testing services, namely, oil and gas well testing; engineering testing; engineering testing in the oil and gas industry; engineering testing, namely, data analysis services in the oil and gas industry; laboratory testing of materials; industrial testing of engineering projects, namely, production testing services in the oil and gas field; rental, hiring and leasing of equipment and machinery for use in the oil and gas industries; commissioning of oil wells and gas wells; decommissioning of oil wells and gas wells; research in the field of welding; surveying; oil and gas field surveys; provision of facilities for engineering analysis, testing and research in the field of oil and gas exploration and production; environmental protection services; consultancy services relating to environmental planning and compliance services for others and technological assistance services for procuring environmental permits in the fields of oil and gas exploration, drilling and production; design of oil and gas exploration and production facilities which comply with environmental standards and regulations; geological research and exploration services; geological surveys; land surveying; geological prospecting; operation and control of oil and gas exploration and production; engineering drawing services; computer aided graphic design and computer aided mechanical design services in the oil and gas field; technical writing of documents and reports for engineering projects in the oil and gas field; graphic services; engineering design, research and development services for others; technical research for others in the oil and gas field; civil engineering design services; validation services namely assessment services to ensure that a conceptual idea works and the provision of data to validate a concept, all relating to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering validation services; consultancy services provided to others for the appraisal and selection of licensors and licensor coordination in relation to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering design services relating to planning, architecture, civil engineering, mechanical engineering, design engineering, fire engineering, petrochemical engineering and industrial plants; mechanical systems design services; provision of safety advice in relation to engineering and production projects and industrial plants and processes; provision of hazard and operability studies to identify and evaluate problems with equipment and machinery used in oil and gas field operations; design of an industrial control system comprised of computer hardware and software for use in controlling equipment and machinery used in oil and gas field operations; software engineering services; database design and development; design and planning of equipment and plant/building layout used in oil and gas field operations; interior design of plants/buildings used in oil and gas field operations; engineering and technological assistance for procurement of environmental permits; design of automated handling systems for use in material handling in oil and gas field operations; geotechnical engineering services; environmental engineering services; design and layout of pipelines in the oil and gas industry; design of ventilation, heating and air conditioning systems; instrument and process control engineering services in the oil and gas field; design of engineering project specifications; planning of buildings and infrastructure systems for buildings; engineering design and coordination and consultancy services; industrial plant optimisation services; industrial plant operation services; engineering modelling and process modelling, namely, modelling on a computer of processes and the evaluation of such processes in the oil and gas field; computer modeling services, namely, computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; finite element modelling; finite element analysis services; thermodynamic modelling ; oil field analysis services, namely, interpreting laboratory measurements for modelling processes; process simulation and optimization, namely, the creation for others of simulations of processes and the subsequent optimization of those processes in the oil and gas field; process troubleshooting, namely, problem and hazard identification through computerized process modelling in the field of oil and gas exploration and production; computational fluid dynamics engineering services; engineering and technological services for the automation of systems and industrial plants; process engineering services; energy auditing services; seismic analysis services, namely, design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; product design consulting services; managing oil and gas exploration and production plants and sites for safety purposes; conducting technical and engineering due diligence in the oil and gas field; environmental due diligence, namely, the preparation of reports on environmental factors in the oil and gas field; engineering and technical assessment of oil and gas field operations; business evaluation services, namely, benchmarking and technical performance testing in the oil and gas field; inspection and testing of plants, equipment and machinery used in the field of oil exploration and production; consulting in the field of workplace health and safety; consultancy services relating to environmental issues; preparation of technical and engineering operating manuals; engineering and technical development of projects and industrial plants; materials testing and evaluation; engineering operational support services, namely, environmental health and safety management services, systems integration services, installation qualification and technical assessment services, and installation qualification services, namely, the assessment of whether an installation meets qualification requirements; remote well control system design services; conducting engineering feasibility studies in the fields of oil and gas exploration and production, and renewable energy and power generation; conceptual engineering design services; technical commissioning supervision, namely, performing commissioning reviews on oil and gas facilities and structures; technological services for the automation and control of systems; engineering services, namely, the automation and control of computer operating systems in the oil and gas field; instrumentation and control system engineering; engineering services, namely specification, integration and implementation services in the fields of oil and gas exploration and production; certification services, namely, providing certification on completed projects in the fields of oil and gas exploration and production; technical supervision and inspection in the field of oil and gas exploration, drilling, retrieval and production; technical handover services, namely, business services for transferring an initiated project to its owner and business advisory services given to owners of initiated projects by way of technical support; engineering services, namely, the coordination of permit-to-work systems in the fields of oil and gas exploration and production; engineering audit services in the oil and gas field, namely, performing engineering audit reviews for integrity process status; data collection services in the fields of oil and gas exploration and production; document management in the fields of oil and gas exploration and production; technical writing; civil infrastructure engineering and construction; decommissioning, dismantling, reengineering, installation and commissioning of engineering projects and plants; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems, namely computer software and databases for use in relation to project management in the fields of oil and gas exploration and production; providing technical information in the field of oil and gas exploration and production; laser scanning services; oil field surveying; technical surveying; engineering plant design management systems; development of interactive multi-media software; software design services for use in the oil and gas industries; software design services for the design and data management of subsea systems, pipelines and risers; valve engineering services; consulting and project management services for the energy industry, namely, process optimisation, asset integrity management services, and project document control services; provision of computerised engineering management systems in relation to logistical, operational and efficiency in the fields of oil and gas exploration and production, renewable energy and power generation; technical writing; writing computer software; editing of computer programmes; engineering lifecycle integrity services, namely, monitoring, inspecting, assessing, maintaining, repairing and advising in relation to the safe and effective functioning of machinery used in the field of oil and gas exploration and production, renewable energy and power generation; design and development of lifecycle management software; inspection and calibration of safety systems in the field of oil and gas exploration and production, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production.

CLAIMS

Priority Filing Date: UNITED KINGDOM June 05, 2014, Application No: UK00003058595 in association with the same kind of goods (1) and in association with the same kind of services (1). Used in UNITED KINGDOM on goods and on services. Registered in or for UNITED KINGDOM on October 10, 2014 under No. UK00003058595 on goods and on services. Proposed Use in CANADA on goods and on services

Application Number 1,685,710 **Filing Date** 2014-07-17

SERVICES

(1) Graphic designs services for others, namely design of advertising art, design of trademarks, development of promotional campaigns for the businesses of others, design of packaging and packaging materials, design of websites.

(2) Computer graphics services for others.

(3) Visual identity services for others, namely design of logos.

(4) Development and design of Internet sites, namely design, hosting, and maintenance of websites for others, development and maintenance of blogs for others.

(5) Exhibition design services for others.

(6) Printing services for others.

(7) Business name research services for others.

(8) Graphic illustration services on behalf of others.

(9) Marketing services for others, namely development of marketing strategies and concepts for others.

(10) Photography services for others.

(11) Event development services for others, namely consulting and research related to events, event planning and strategy, production of advertising material, production of videos and photography.

(12) Interior design services for others.

WONG CHAK BONG (WANG ZE BANG)

Index Headings

WONG CHAK BONG (WANG ZE BANG)

Image Description (Vienna)

- Heads, busts
- Hair, locks of hair, wigs, beards, moustaches
- Ellipses
- One circle or ellipse
- Circles or ellipses containing representations of human beings or parts of the human body
- Inscriptions in Chinese or Japanese characters

Foreign Character Translation

The transliteration of the Chinese characters which appear in the attached drawing is Wong Chak Bong (Wang Ze Bang). "Wong Chak Bong" is the transliteration in Cantonese Chinese and "Wang Ze Bang" is the transliteration in Mandarin Chinese. The Chinese characters refer to the name of a person and have no meaning in English collectively. As provided by the applicant, each character may be translated individually as follows: the first character is a surname, also meaning "A king; best or strongest of its kind"; the second character meaning "kindness, beneficence" and the third character meaning "country, state."

MONOART

GOODS

(1) Dental apparatus and instruments, namely, autoclaves for medical use; aluminum trays for autoclaves; stainless steel trays for autoclaves; dentist's chairs and stools; x-ray protections for dental use, namely x-ray aprons for children, adults and for the operators; portable dark room for x-rays for dental use; crystal holders for single radiographs for dental clinic; holders for multiple endoral radiographs for dental clinic; towels for dentists; plastic cups for dentists; saliva ejectors; protection face masks for dental use; aprons for dental use; tray paper for dentists; cotton rolls for dentists; bandanas for dentists; cut proof gloves for dentists; gowns for dentists; polyethylenic aprons for dentists; aspirator tips for dental use, chains for dentists' towels; towel dispensers for dentists' use; apron dispensers; cotton roll dispensers for dentists' use; plastic cup dispensers; instant ice and spray ice for dentists' use; headrest covers for dentist's patients; dentists' chairs covers; facial tissues for dental clinic use; one-use impression syringes for elastomers, silicones, alginates and for impression; rubber dams for dental use; bur blocks for dental use; mixing bowls for dentists' use.

(2) Surgical, medical, dental apparatus and instruments namely, autoclaves for medical use; aluminum trays for autoclaves; stainless steel trays for autoclaves; dentist's chairs and stools; x-ray protections for dental use, namely x-ray aprons for children, adults and for the operators; portable dark room for x-rays for dental use; crystal holders for single radiographs for dental clinic; holders for multiple endoral radiographs for dental clinic; towels for dentists; plastic cups for dentists; saliva ejectors; protection face masks for dental use; aprons for dental use; tray paper for dentists; cotton rolls for dentists; bandanas for dentists; cut proof gloves for dentists; gowns for dentists; polyethylenic aprons for dentists; aspirator tips for dental use, chains for dentists' towels; towel dispensers for dentists' use; apron dispensers; cotton roll dispensers for dentists' use; plastic cup dispensers; instant ice and spray ice for dentists' use; headrest covers for dentist's patients; dentists' chairs covers; facial tissues for dental clinic use; one-use impression syringes for elastomers, silicones, alginates and for impression; rubber dams for dental use; bur blocks for dental use; mixing bowls for dentists' use.

CLAIMS

Used in CANADA since at least as early as July 2012 on goods (1). Used in ITALY on goods (2). Registered in or for ITALY on May 03, 2006 under No. 0001006260 on goods (2)

CONNEXIONS CLEARVIEW

SERVICES

(1) Software service featuring software for use in the collection, organization, storage, and analysis of information provided by third parties via telephone, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(2) Software service featuring software for use in the collection, organization, storage, and analysis of information provided by third parties via the internet, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(3) Software service featuring software for use in the collection, organization, storage, and analysis of information provided by third parties via mail, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(4) Software service featuring software for use in the collection, organization, storage, and analysis of information provided by client's employees via telephone, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(5) Software service featuring software for use in the collection, organization, storage, and analysis of information provided by client's employees via the internet, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(6) Software service featuring software for use in the collection, organization, storage, and analysis of information provided by client's employees via mail, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(7) Software service featuring software for use in the confidential exchange of information between a client and a third party, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(8) Software service featuring software for use in the confidential exchange of information between a client and an employee of such client, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(9) Software service featuring software that permits clients to review, search, manipulate, add, share, and export information provided by third parties about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(10) Software service featuring software that permits clients to review, search, manipulate, add, share, and export information provided by a client's employees about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(11) Software service featuring software for use in the collection, organization, storage, and analysis of information provided by third parties via voice-over-internet protocol, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

(12) Software service featuring software for use in the collection, organization, storage, and analysis of information provided by a client's employees via voice-over-internet protocol, namely information about the operation of the client organization and information about incidents and situations which could expose the client organization to financial, operational, and reputational risk.

GOODS

Soaps, namely bar soaps, bath soaps, beauty soaps, body soaps, perfumed soaps, skin soaps, shaving soaps; perfumes, ethereal oils, cosmetics, products for the care and conditioning of hair, namely hair balsam, hair care lotions, hair conditioners, hair creams, hair shampoo; dentifrices; creams, lotions, gels and balms for cosmetic use; bath salts.

SERVICES

Retail services and on-line sales, featuring soaps, perfumery, essential oils, cosmetics, preparations for the care and the treatment of the hair, dentifrices, creams, lotions, gel, balms for cosmetic use, bath salts, scissors, nail files, tweezers, manicure and pedicure sets, manicure implements, pedicure implements, eyelash curlers, eyelash separators, nail nippers, nail polishers, nail clippers, electric or non-electric, razors, toiletry bags (sold empty), cosmetic bags (sold empty), vanity cases not fitted, cosmetic purses (sold empty), cosmetic bags sold empty, clutch bags, purses, wallets, bags, rucksacks, cosmetic brushes, shaving brushes, facial sponges for applying make-up, toilet sponges, powder compacts, applicator sticks for applying makeup, nail brushes, eyebrow brushes, eyelash combs, toilet brushes, combs, perfume sprayers, soap dishes, soap dispensers, cases for cosmetic articles, containers for cosmetics, storage canisters, foam toe separators for use in pedicures.

WOOD GROUP PSN

GOODS

Paints, varnishes, lacquers; and preservatives used in connection with asset protection and to protect against rust and against deterioration of infrastructure; surveying equipment, namely marine and land seismographs, magnetometers, photogrammetric work stations; devices for measuring the levels of oil and gas, meters used to measure the flow of oil and gas; fire protective clothing; radiation protective clothing, chemical exposure protective clothing; safety clothing for use in the oils and gas industry namely, coveralls for protection against fire and chemicals; fire extinguishers; fire detectors; smoke detectors; computer software and manuals distributed therewith for oil and gas reservoir analysis; computer software for the collection of statistical production data for oil and gas field operations; computer software for project management, namely software to manage documents and software to create and manage timetables, software for use in database management, software for use in the engineering fields; computer software for engineering, engineering design, technical calculations and modelling; computer software for power plant operations and maintenance; computer software for engineering of instrumentation, control and electrical systems for use in relation to oil and gas surveying, exploration, drilling and production; electronic publications namely electronic leaflets, electronic articles, electronic books and electronic magazines; telecommunications apparatus namely, computer hardware, computer cables, fibre optic cables, very small aperture terminal (VSAT), satellite dishes, antenna, namely aerials, two way radios, telephones; computer hardware and computer software for the monitoring and remote control of flow measurement, leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; computer software, hardware and firmware for the collation, input, output, display, analysis, reporting and generation of information data and reports relating to the oil and gas and renewable energy industries; electric power generators; gas operated power generators; wind turbine power generators; pumps and compressors as parts of machines, motors and engines; uninterruptible power supplies; safety systems and safety apparatus, all being for use in the oil, gas and renewable energy industries namely safety valves, safety joints, locks, flow control devices, isolation valves, flotation devices for measuring the levels of oils and gas, monitoring devices for tracking the flow of oil and gas through pipelines and wells, packing devices used in sealing oil and gas wells and pipelines, cables, retainers, stabilizers, seals, plugs, control mechanisms for use in machines, liquid level sensors, pressure sensors, thermal sensors, and temperature sensors, apparatus used to control the flow of oil and gas through wells and pipelines, vibration detectors, anchors; fire alarms; alarms for the detection of inflammable gases; navigation aids, apparatus, instrumentation and systems, namely, lanterns, explosive fog signals, marine luminous safety beacons, marine luminous warning beacons, radar receivers with amplifiers; remote monitoring and control systems comprised of computer hardware and computer software for the monitoring and remote control of fluid flow measurement, gas leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; apparatus comprised of computer hardware and computer software for the monitoring for the remote observation and operation of oil and gas drilling machinery, pipelines and wells, flow meters used to measure the flow of oil and gas through wells and pipelines, thermometers; micro-processor controlled rig-floor monitors which monitor and display various drilling functions with alarms; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity, and composition; page party alarm systems; pneumatic and electrical safety systems comprised of pneumatic pumps , pneumatic hoists, pressure relief valves, safety valves, stop valves, valves for industrial machinery , all for use in the field of oil and gas exploration.

SERVICES

Business and management services in the fields of engineering, procurement, construction management, operational support and facility management for oil and gas production, transportation and processing facilities; business management services for the development of projects from concept to realisation, commissioning and operation; business services relating to the commissioning of projects in the oil and gas industries, automotive industries, consumer products, pulp and paper, pharmaceuticals, chemicals and polymers, refineries and petrochemicals; business management services to bring together groups of individuals, companies, contractors and institutions to facilitate and implement projects; procurement services relating to materials, equipment and services relating to the oil and gas industry; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production; cost estimation services related to the fields of oil and gas exploration and production; business administration services and business management for the compliance of projects with regulations; business administration and business management services for strategic planning and implementation; business services and business management of facilities for process and industrial plants; lifecycle cost analysis and project duration management services for others in the fields of oil and gas exploration and production; provision of business efficiency techniques relating to processes and industrial plants; estimation services (business management) for industrial plants and processes and construction thereof; provision of strategic business planning; provision of cost analysis services for others in the fields of oil and gas exploration and production; business risk assessment services; risk management services; business management advice in the field of project funding; business management advice in the field of financial planning for projects; financial planning advisory services; business risk assessment services; business management assistance for commercial companies; business management of contractors and third parties involved in the construction, implementation, commissioning and operation of engineering projects; procurement for others of engineering services for a third party; personnel management; management consulting and consultancy services; business appraisals; supply chain appraisals for others in the fields of oil and gas exploration and production; supply chain management for others in the fields of oil and gas exploration and production; project cost management and estimation relating to projects in the fields of oil and gas exploration and production; investment advisory services; investment management; business advisory services for the optimisation of process and industrial plant assets and for the planning of resources; asset optimisation and resource planning and technology assessment all being business services for the management of process and industrial plant projects; evaluation of business practices and techniques; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production, namely, procurement of buildings, construction and engineering services, engineering personnel and technical resources; procurement of engineering personnel and technical resources; business services for initiating projects for others; business services for facilitating the handover of a project to others; project scheduling services related to projects in the fields of oil and gas exploration and production; support services in the form of business advisory services given to third parties; vendor management services for others in the fields of oil and gas exploration and production; consultancy services in relation to business document management and data management related to projects in the fields of oil and gas exploration and production; data processing services; business management services to facilitate turnkey operations; provision of commercial models (business advice) for process and industrial plant projects; provision of emergency management services; personnel administration support services; personnel recruitment, screening and placement; testing to determine employment skills; payroll services; preparation of payrolls (for others); visa/work permit administration services; taxation consultation advice and consultancy services; provision of business and management services for the reduction of costs, improvement of schedules, management of risk, maximisation of safety and delivery of critical project objectives; retail and wholesale services connected with the sale of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production; building, construction, installation, maintenance, repair, cleaning, commissioning, decommissioning services in the oil and gas and renewable energy industries, automotive industry, consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries and petrochemical plants and installations; engineering project management relating to the design, building, construction, commissioning and engineering operations for industrial and process plants; construction project management services in the fields of oil and gas exploration and production; provision of fire engineering services; civil engineering; construction services in relation to the fields of oil and gas exploration and production; civil engineering consultancy (construction); civil engineering underwater construction services; installation of oil well drilling and pumping equipment ; installation of equipment and machinery used in oil exploration; well completion and remedial services; cleaning of oil and gas drilling equipment and facililties; technical consulting services relating to the installation of process and industrial plants in the oil and gas industry; repair of pipelines; civil engineering maintenance services; welding services for the repair of oil and gas exploration and production equipment and machinery; installation, cleaning, repair and maintenance of oil and gas exploration and extraction equipment; oil and gas drilling services; oil and gas well drilling services; rental of oil and gas well drilling equipment; rental of tools and plant equipment for oil and gas well construction and extraction; engineering feasibility and prefeasibility studies, namely providing advice concerning services relating to building, construction and engineering projects in the field of oil and gas exploration and production; management of contractors, consultants and third parties involved in building, construction and commissioning and implementation of engineering projects; building construction services, building construction supervision, building management supervision; maintenance, namely maintenance planning, reliability centered maintenance, maintenance optimization and maintenance management of installations and facilities in the field of oil and gas production and exploration; oilfield surveying; surveying services, namely, oil and gas well surveying, surveying of oil-bearing seams, imaging services in connection with oil and gas exploration, fire engineering surveys, energy surveys and flare surveys, flare surveys associated with oil wells; oil well prospecting and oil field location analysis; support services being construction advice given to owners of initiated building, construction and engineering projects; aircraft maintenance and repair services; turbine repair, maintenance, overhaul and upgrade services; industrial and aviation turbine repair, maintenance, overhaul and upgrade services; electrical appliance installation, maintenance and repair services; installation, maintenance and repair of fire alarm systems and fire extinguishers; fire protection and detection services; installation, maintenance and repair of pumps namely vacuum, suction, rotary and piston pumps for gases, liquefied gases and hydraulic liquids, heat pumps, hydraulic pumps, oil pumps, gas pumps, hydraulic pumps for use in connection with oil wells and pipelines; repair, maintenance, overhaul of equipment for use in oil and gas exploration, drilling, retrieval and production; information services relating to the repair of equipment and machinery for use in oil and gas exploration, drilling, retrieval and production; repair and maintenance of oil and gas drilling equipment and facilities; underwater repair services for the repair of oil and gas wells and pipelines; maintenance and overhaul of compressors, pumps, generators and rotating equipment; provision of integrated solutions for the maintenance, repair, overhaul and upgrade of rotating equipment in the oil and gas and power generation industries; repair and maintenance of pumps, compressors, gear boxes, power turbines, reciprocating engines, diesel engines, internal combustion engines, controls and instrumentation, all for use in the field of oil and gas production and exploration; gas turbine overhaul services; inspection of oil and gas exploration, extraction and production installations prior to repair; rental of machine tools for use in the repair and maintenance of oil and gas exploration, extraction and production installations; rental of air compressors; rental of industrial plants and machine tools for use in the repair of oil and gas exploration, extraction and production installations ; project management relating to the repair of oil and gas exploration, extraction and production installations; installation, construction, maintenance, servicing and repair of energy and power generating machinery; installation, maintenance and repair of workplace safety equipment for use in oil and gas field operations, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; transport of machinery used in oil and gas field operations by truck and by rail; transportation of materials, machinery and personnel by air , sea, road and rail; delivery of goods by truck and by air; transportation logistics services, namely, planning and scheduling of drilling rigs and vessels used in oil and gas exploration and production; transmission of oil and gas through pipelines; warehouse planning and management; packaging of articles for transportation; freight transportation by truck, train and/or plane; generation of gas and electricity; generation of electricity; generation of electricity from thermal sources; rental of power generators; rental of turbines (being generators); rental of gas turbines for power generation; rental of power generating equipment; consultancy services relating to the production of electrical power; rental of air conditioners; rental of air conditioning installations for buildings; printing services; waste recycling; conducting of educational courses and training, namely, engineering and workplace health and safety courses in the field oil and gas field operations; providing workplace safety training in the fields of oil and gas exploration and oil and gas extraction and production; providing on the job safety training for use in onshore and offshore oil and gas exploration, extraction and production environments; the preparation and conduct of training programs for training operators in the use of equipment used in manufacturing and resource industries; the preparation and conduct of training programs in relation to the installation and maintenance of safety equipment used in the repair and maintenance of oil and gas drilling equipment and facilities; provision of training for maintenance planning and scheduling in the fields of oil and gas exploration and production; arranging and conducting conferences, seminars and exhibitions in the field of oil and gas exploration, drilling and production; providing education and instruction services in relation to engineering and workplace health and safety in the field of oil and gas exploration, drilling and production; publication of books and manuals, printed matter and text; production of workplace safety training videotapes and video tape recordings in the field of oil and gas exploration, drilling and production; information relating to training and education in relation to engineering and workplace health and safety in the fields of oil and gas exploration and production provided online from a computer database or the internet; providing online electronic publications (not downloadable) online from databases and the internet; publication of multi-media material online; editing, proof reading and quality control of written material and documents; workplace health and safety document specification; document formatting, amendment and updating, electronic publishing and processing of documents; engineering services namely development and planning of industrial plants, machine plants for power production, heat pumps, energy recovering apparatus , gas plants; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services in the field of environmental compliance; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations and providing technical advice on drilling fluids and drilling fluid use and technical advice on data control, products control, and pressure control; providing technological and engineering knowhow in the field of oil and gas production and exploration; research and design services, namely, engineering modeling and design of drilling processes and operation of facilities used in oil and gas exploration and production; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations, design services relating to the design of engineering projects to maximise value, structural design, mechanical systems design, electrical systems design, control systems design, piping systems design and layout, design of engineering design specifications, all of the aforesaid being in relation to oil and gas exploration, drilling and production ; industrial engineering analysis services, namely, cost analysis, risk analysis, being the analysis of risk for others before risk management can be performed, financial feasibility studies, investment analysis, financial cost analysis (lifestyle cost analysis) services; engineering design services in the field of oil and gas exploration and production; engineering concept development and design services in the field of oil and gas exploration and production; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services, namely structural engineering, process engineering, and design and development of equipment, machinery, computers, computer hardware and software for use in the field oil and gas exploration and production; design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching; exploration and searching for oil and gas; geophysical exploration for oil and gas; providing well pressure testing and control services for others in the oil and gas industries; pressure testing of oil and gas wells; oil and gas well logging and testing; oil and gas exploration and production services; engineering services in the field of oil and gas exploration and production; technical support services for the oil and gas industries; surveying services; surveying services for the oil and gas industries; provision of technical research and support for the oil and gas industries; managing the exploration, production, logistics and operations of gas and oil properties for others; downhole data acquisition; testing of industrial and aviation turbines; provision of workshop facilities for engineering research and design in the field of oil and gas exploration and production; calibration of equipment and machinery used in the field of oil and gas exploration and production; measurement services, namely, providing measurements and downhole telemetry for use in the drilling of oil and gas wells; quality control and auditing services provided for others in the fields of oil and gas exploration, drilling and production; certification services in the field of oil and gas exploration and production; commissioning services in the oil and gas industry namely, environmental health and safety management services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification requirements, providing project management in the oil and gas field, inspection services to ensure equipment and buildings meet health, safety and regulatory standards, performance verification and certification of equipment, systems and buildings in the oil and gas field; oil and gas well environmental analysis for authentication testing; testing of equipment and machinery in the oil and gas field to ensure compliance with health, safety and regulatory standards ; technical testing of network systems for use in the oil and gas field; engineering machinery safety testing services; provision of testing and inspection facilities for oil and gas equipment; material testing services; scientific testing services, namely, oil and gas well testing; engineering testing; engineering testing in the oil and gas industry; engineering testing, namely, data analysis services in the oil and gas industry; laboratory testing of materials; industrial testing of engineering projects, namely, production testing services in the oil and gas field; rental, hiring and leasing of equipment and machinery for use in the oil and gas industries; commissioning of oil wells and gas wells; decommissioning of oil wells and gas wells; research in the field of welding; surveying; oil and gas field surveys; provision of facilities for engineering analysis, testing and research in the field of oil and gas exploration and production; environmental protection services; consultancy services relating to environmental planning and compliance services for others and technological assistance services for procuring environmental permits in the fields of oil and gas exploration, drilling and production; design of oil and gas exploration and production facilities which comply with environmental standards and regulations; geological research and exploration services; geological surveys; land surveying; geological prospecting; operation and control of oil and gas exploration and production; engineering drawing services; computer aided graphic design and computer aided mechanical design services in the oil and gas field; technical writing of documents and reports for engineering projects in the oil and gas field; graphic services; engineering design, research and development services for others; technical research for others in the oil and gas field; civil engineering design services; validation services namely assessment services to ensure that a conceptual idea works and the provision of data to validate a concept, all relating to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering validation services; consultancy services provided to others for the appraisal and selection of licensors and licensor coordination in relation to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering design services relating to planning, architecture, civil engineering, mechanical engineering, design engineering, fire engineering, petrochemical engineering and industrial plants; mechanical systems design services; provision of safety advice in relation to engineering and production projects and industrial plants and processes; provision of hazard and operability studies to identify and evaluate problems with equipment and machinery used in oil and gas field operations; design of an industrial control system comprised of computer hardware and software for use in controlling equipment and machinery used in oil and gas field operations; software engineering services; database design and development; design and planning of equipment and plant/building layout used in oil and gas field operations; interior design of plants/buildings used in oil and gas field operations; engineering and technological assistance for procurement of environmental permits; design of automated handling systems for use in material handling in oil and gas field operations; geotechnical engineering services; environmental engineering services; design and layout of pipelines in the oil and gas industry; design of ventilation, heating and air conditioning systems; instrument and process control engineering services in the oil and gas field; design of engineering project specifications; planning of buildings and infrastructure systems for buildings; engineering design and coordination and consultancy services; industrial plant optimisation services; industrial plant operation services; engineering modelling and process modelling, namely, modelling on a computer of processes and the evaluation of such processes in the oil and gas field; computer modeling services, namely, computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; finite element modelling; finite element analysis services; thermodynamic modelling ; oil field analysis services, namely, interpreting laboratory measurements for modelling processes; process simulation and optimization, namely, the creation for others of simulations of processes and the subsequent optimization of those processes in the oil and gas field; process troubleshooting, namely, problem and hazard identification through computerized process modelling in the field of oil and gas exploration and production; computational fluid dynamics engineering services; engineering and technological services for the automation of systems and industrial plants; process engineering services; energy auditing services; seismic analysis services, namely, design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; product design consulting services; managing oil and gas exploration and production plants and sites for safety purposes; conducting technical and engineering due diligence in the oil and gas field; environmental due diligence, namely, the preparation of reports on environmental factors in the oil and gas field; engineering and technical assessment of oil and gas field operations; business evaluation services, namely, benchmarking and technical performance testing in the oil and gas field; inspection and testing of plants, equipment and machinery used in the field of oil exploration and production; consulting in the field of workplace health and safety; consultancy services relating to environmental issues; preparation of technical and engineering operating manuals; engineering and technical development of projects and industrial plants; materials testing and evaluation; engineering operational support services, namely, environmental health and safety management services, systems integration services, installation qualification and technical assessment services, and installation qualification services, namely, the assessment of whether an installation meets qualification requirements; remote well control system design services; conducting engineering feasibility studies in the fields of oil and gas exploration and production, and renewable energy and power generation; conceptual engineering design services; technical commissioning supervision, namely, performing commissioning reviews on oil and gas facilities and structures; technological services for the automation and control of systems; engineering services, namely, the automation and control of computer operating systems in the oil and gas field; instrumentation and control system engineering; engineering services, namely specification, integration and implementation services in the fields of oil and gas exploration and production; certification services, namely, providing certification on completed projects in the fields of oil and gas exploration and production; technical supervision and inspection in the field of oil and gas exploration, drilling, retrieval and production; technical handover services, namely, business services for transferring an initiated project to its owner and business advisory services given to owners of initiated projects by way of technical support; engineering services, namely, the coordination of permit-to-work systems in the fields of oil and gas exploration and production; engineering audit services in the oil and gas field, namely, performing engineering audit reviews for integrity process status; data collection services in the fields of oil and gas exploration and production; document management in the fields of oil and gas exploration and production; technical writing; civil infrastructure engineering and construction; decommissioning, dismantling, reengineering, installation and commissioning of engineering projects and plants; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems, namely computer software and databases for use in relation to project management in the fields of oil and gas exploration and production; providing technical information in the field of oil and gas exploration and production; laser scanning services; oil field surveying; technical surveying; engineering plant design management systems; development of interactive multi-media software; software design services for use in the oil and gas industries; software design services for the design and data management of subsea systems, pipelines and risers; valve engineering services; consulting and project management services for the energy industry, namely, process optimisation, asset integrity management services, and project document control services; provision of computerized engineering management systems in relation to logistical, operational and efficiency in the fields of oil and gas exploration and production, renewable energy and power generation; technical writing; writing computer software; editing of computer programmes; engineering lifecycle integrity services, namely, monitoring, inspecting, assessing, maintaining, repairing and advising in relation to the safe and effective functioning of machinery used in the field of oil and gas exploration and production, renewable energy and power generation; design and development of lifecycle management software; inspection and calibration of safety systems in the field of oil and gas exploration and production, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; consulting in the field of workplace health and safety; risk management consulting services in the field of workplace health and safety; development and management of workplace health and safety programs; consulting in the field of workplace health and safety; conducting hazard and operability studies/hazard identification in the fields of oil and gas exploration and production; business facility and site auditing and third party inspections; environmental and workplace health and safety auditing for regulatory compliance;

operational support services namely environmental health and safety management and inspection services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification and legal requirements, information and advisory services relating to the aforesaid services; rental of workplace safety equipment for use in oil and gas field operations; alarm monitoring services; monitoring of security systems; advice and information in the field of oil and gas exploration and production.

CLAIMS

Priority Filing Date: UNITED KINGDOM June 12, 2014, Application No: UK00003059587 in association with the same kind of goods and in association with the same kind of services. Used in UNITED KINGDOM on goods and on services. Registered in or for UNITED KINGDOM on October 10, 2014 under No. UK00003059587 on goods and on services. Proposed Use in CANADA on goods and on services

TRADEMARK

WOOD GROUP KENNY

GOODS

(1) Paints, varnishes, lacquers; and preservatives used in connection with asset protection and to protect against rust and against deterioration of infrastructure.

(2) Surveying equipment, namely marine and land seismographs, magnetometers, photogrammetric work stations; devices for measuring the levels of oil and gas, meters used to measure the flow of oil and gas; fire protective clothing; radiation protective clothing, chemical exposure protective clothing; safety clothing for use in the oils and gas industry namely, coveralls for protection against fire and chemicals; fire extinguishers; fire detectors; smoke detectors; computer software and manuals distributed therewith for oil and gas reservoir analysis; computer software for the collection of statistical production data for oil and gas field operations; computer software for project management, namely software to manage documents and software to create and manage timetables, software for use in database management, software for use in the engineering fields; computer software for engineering, engineering design, technical calculations and modelling; computer software for power plant operations and maintenance; computer software for engineering of instrumentation, control and electrical systems for use in relation to oil and gas surveying, exploration, drilling and production; electronic publications namely electronic leaflets, electronic articles, electronic books and electronic magazines; telecommunications apparatus namely, computer hardware, computer cables, fibre optic cables, very small aperture terminal (VSAT), satellite dishes, antenna, namely aerials, two way radios, telephones; computer hardware and computer software for the monitoring and remote control of flow measurement, leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; computer software, hardware and firmware for the collation, input, output, display, analysis, reporting and generation of information data and reports relating to the oil and gas and renewable energy industries; electric power generators; gas operated power generators; wind turbine power generators; pumps and compressors as parts of machines, motors and engines; uninterruptible power supplies; safety systems and safety apparatus, all being for use in the oil, gas and renewable energy industries namely safety valves, safety joints, locks, flow control devices, isolation valves, flotation devices for measuring the levels of oils and gas, monitoring devices for tracking the flow of oil and gas through pipelines and wells, packing devices used in sealing oil and gas wells and pipelines, cables, retainers, stabilizers, seals, plugs, control mechanisms for use in machines, liquid level sensors, pressure sensors, thermal sensors, and temperature sensors, apparatus used to control the flow of oil and gas through wells and pipelines, vibration detectors, anchors; fire alarms; alarms for the detection of inflammable gases; navigation aids, apparatus, instrumentation and systems, namely, lanterns, explosive fog signals, marine luminous safety beacons, marine luminous warning beacons, radar receivers with amplifiers; remote monitoring and control systems comprised of computer hardware and computer software for the monitoring and remote control of fluid flow measurement, gas leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; apparatus comprised of computer hardware and computer software for the monitoring for the remote observation and operation of oil and gas drilling machinery, pipelines and wells, flow meters used to measure the flow of oil and gas through wells and pipelines, thermometers; micro-processor controlled rig-floor monitors which monitor and display various drilling functions with alarms; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity , and composition; page party alarm systems; pneumatic and electrical safety systems comprised of pneumatic pumps, pneumatic hoists, pressure relief valves, safety valves, stop valves, valves for industrial machinery, all for use in the field of oil and gas exploration.

SERVICES

(1) Generation of gas and electricity; generation of electricity; generation of electricity from thermal sources; rental of power generators; rental of turbines (being generators); rental of gas turbines for power generation; rental of power generating equipment; consultancy services relating to the production of electrical power; rental of air conditioners; rental of air conditioning installations for buildings; printing services; waste recycling; consulting in the field of workplace health and safety; risk management consulting services in the field of workplace health and safety; development and management of workplace health and safety programs; consulting in the field of workplace health and safety; conducting hazard and operability studies/hazard identification in the fields of oil and gas exploration and production; business facility and site auditing and third party inspections; environmental and workplace health and safety auditing for regulatory compliance; operational support services namely environmental health and safety management and inspection services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification and legal requirements, information and advisory services relating to the aforesaid services; rental of workplace safety equipment for use in oil and gas field operations; alarm monitoring services; monitoring of security systems.

(2) Business and management services in the fields of engineering, procurement, construction management, operational support and facility management for oil and gas production, transportation and processing facilities; business management services for the development of projects from concept to realisation, commissioning and operation; business services relating to the commissioning of projects in the oil and gas industries, automotive industries, consumer products, pulp and paper, pharmaceuticals, chemicals and polymers, refineries and petrochemicals; business management services to bring together groups of individuals, companies, contractors and institutions to facilitate and implement projects; procurement services relating to materials, equipment and services relating to the oil and gas industry; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production; cost estimation services related to the fields of oil and gas exploration and production; business administration services and business management for the compliance of projects with regulations; business administration and business management services for strategic planning and implementation; business services and business management of facilities for process and industrial plants; lifecycle cost analysis and project duration management services for others in the fields of oil and gas exploration and production; provision of business efficiency techniques relating to processes and industrial plants; estimation services (business management) for industrial plants and processes and construction thereof; provision of strategic business planning; provision of cost analysis services for others in the fields of oil and gas exploration and production; business risk assessment services; risk management services; business management advice in the field of project funding; business management advice in the field of financial planning for projects; financial planning advisory services; business risk assessment services; business management assistance for commercial companies; business management of contractors and third parties involved in the construction, implementation, commissioning and operation of engineering projects; procurement for others of engineering services for a third party; personnel management; business management consultancy services; business appraisals; supply chain appraisals for others in the fields of oil and gas exploration and production; supply chain management for others in the fields of oil and gas exploration and production; project cost management and estimation relating to projects in the fields of oil and gas exploration and production; investment advisory services; investment management; business advisory services for the optimisation of process and industrial plant assets and for the planning of resources; asset optimisation and resource planning and technology

assessment all being business services for the management of process and industrial plant projects; evaluation of business practices and techniques; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production, namely, procurement of buildings, construction and engineering services, engineering personnel and technical resources; business services for initiating projects for others; business services for facilitating the handover of a project to others; project scheduling services related to projects in the fields of oil and gas exploration and production; support services in the form of business advisory services given to third parties; vendor management services for others in the fields of oil and gas exploration and production; consultancy services in relation to business document management and data management related to projects in the fields of oil and gas exploration and production; data processing services; business management services to facilitate turnkey operations; provision of commercial models (business advice) for process and industrial plant projects; provision of emergency management services; personnel administration support services; personnel recruitment, screening and placement; testing to determine employment skills; payroll services; preparation of payrolls (for others); visa/work permit administration services; taxation consultation advice and consultancy services; provision of business and management services for the reduction of costs, improvement of schedules, management of risk, maximisation of safety and delivery of critical project objectives; retail and wholesale services connected with the sale of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production; building, construction, installation, maintenance, repair, cleaning, commissioning, decommissioning services in the oil and gas and renewable energy industries, automotive industry, consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries and petrochemical plants and installations; engineering project management relating to the design, building, construction, commissioning and engineering operations for industrial and process plants; construction project management services in the fields of oil and gas exploration and production; provision of fire engineering services; civil engineering; construction services in relation to the fields of oil and gas exploration and production; civil engineering consultancy (construction); civil engineering underwater construction services; installation of oil well drilling and pumping equipment; installation of equipment and machinery used in oil exploration; well completion and remedial services; cleaning of oil and gas drilling equipment and facilities; technical consulting services relating to the installation of process and industrial plants in the oil and gas industry; repair of pipelines; civil engineering maintenance services; welding services for the repair of oil and gas exploration and production equipment and machinery; installation, cleaning , repair and maintenance of oil and gas exploration and extraction equipment; oil and gas drilling services; oil and gas well drilling services; rental of oil and gas well drilling equipment; rental of tools and plant equipment for oil and gas well construction and extraction; engineering feasibility and prefeasibility studies, namely providing advice concerning services relating to building, construction and engineering projects in the field of oil and gas exploration and production; management of contractors, consultants and third parties involved in building, construction and commissioning and implementation of engineering projects; building construction services, building construction supervision, building management supervision; maintenance, namely maintenance planning, reliability centered maintenance, maintenance optimization and maintenance management of installations and facilities in the field of oil and gas production and exploration; oilfield surveying; surveying services, namely, oil and gas well surveying, surveying of oil-bearing seams, imaging services in connection with oil and gas exploration, fire engineering surveys, energy surveys and flare surveys, flare surveys associated with oil wells; oil well prospecting and oil field location analysis; support services being construction advice given to owners of initiated building, construction and engineering projects; aircraft maintenance and repair services; turbine repair, maintenance, overhaul and upgrade services; industrial and aviation turbine repair, maintenance, overhaul and upgrade services; electrical appliance installation, maintenance and repair services; installation, maintenance and repair of fire alarm systems and fire extinguishers; fire protection and detection services; installation, maintenance and repair of pumps namely vacuum, suction, rotary and piston pumps for gases, liquefied gases and hydraulic liquids, heat pumps, hydraulic pumps, oil pumps, gas pumps, hydraulic pumps for use in connection with oil wells and pipelines; repair, maintenance, overhaul of equipment for use in oil and gas exploration, drilling, retrieval and production; information services relating to the repair of equipment and machinery for use in oil and gas exploration, drilling, retrieval and production; repair and maintenance of oil and gas drilling equipment and facilities; underwater repair services for the repair of oil and gas wells and pipelines; maintenance and overhaul of compressors, pumps, generators and rotating equipment; provision of integrated solutions for the maintenance, repair, overhaul and upgrade of rotating equipment in the oil and gas and power generation industries; repair and maintenance of pumps, compressors, gear boxes, power turbines, reciprocating engines , diesel engines, internal combustion engines, controls and instrumentation, all for use in the field of oil and gas production and exploration; gas turbine overhaul services; inspection of oil and gas exploration, extraction and production installations prior to repair; rental of machine tools for use in the repair and maintenance of oil and gas exploration, extraction and production installations; rental of air compressors; rental of industrial plants and machine tools for use in the repair of oil and gas exploration, extraction and production installations; project management relating to the repair of oil and gas exploration, extraction and production installations; installation, construction, maintenance, servicing and repair of energy and power generating machinery; installation, maintenance and repair of workplace safety equipment for use in oil and gas field operations, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; transport of machinery used in oil and gas field operations by truck and by rail; transportation of materials, machinery and personnel by air, sea, road and rail; delivery of goods by truck and by air; transportation logistics services, namely, planning and scheduling of drilling rigs and vessels used in oil and gas exploration and production; transmission of oil and gas through pipelines; warehouse planning and management; packaging of articles for transportation; freight transportation by truck, train and plane; conducting of educational courses and training, namely, engineering and workplace health and safety courses in the field oil and gas field operations; providing workplace safety training in the fields of oil and gas exploration and oil and gas extraction and production; providing on the job safety training for use in onshore and offshore oil and gas exploration, extraction and production environments; the preparation and conduct of training programs for training operators in the use of equipment used in manufacturing and resource industries; the preparation and conduct of training programs in relation to the installation and maintenance of safety equipment used in the repair and maintenance of oil and gas drilling equipment and facilities; provision of training for maintenance planning and scheduling in the fields of oil and gas exploration and production; arranging and conducting conferences, seminars and exhibitions in the field of oil and gas exploration, drilling and production; providing education and instruction services in relation to engineering and workplace health and safety in the field of oil and gas exploration, drilling and production; publication of books and manuals, printed matter and text; production of workplace safety training videotapes and video tape recordings in the field of oil and gas exploration, drilling and production; information relating to training and education in relation to engineering and workplace health and safety in the fields of oil and gas exploration and production provided online from a computer database or the internet; providing online electronic publications (not downloadable) online from databases and the internet; publication of multi-media material online; editing, proof reading and quality control of written material and documents; workplace health and safety document specification; document formatting, amendment and updating, electronic publishing and processing of documents; engineering services namely development and planning of industrial plants, machine plants for power production, heat pumps, energy recovering apparatus, gas plants; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services in the field of environmental compliance; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations and providing technical advice on drilling fluids and drilling fluid use and technical advice on data control, products control, and pressure control; providing technological and engineering knowhow in the field of oil and gas production and exploration; research and design services, namely, engineering modeling and design of drilling processes and operation of facilities used in oil and gas exploration and production; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations, design services relating to the design of engineering projects to maximise value, structural design, mechanical systems design, electrical systems design, control systems design, piping systems design and layout, design of engineering design specifications, all of the aforesaid being in relation to oil and gas exploration, drilling and production; industrial engineering analysis services, namely, cost analysis, risk analysis , being the analysis of risk for others before risk management can be performed, financial feasibility studies, investment analysis, financial cost analysis (lifestyle cost analysis) services; engineering design services in the field of oil and gas exploration and production; engineering concept development and design services in the field of oil and gas exploration and production; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services, namely structural engineering, process engineering, and design and development of equipment, machinery, computers, computer hardware and software for use in the field oil and gas exploration and production, electrical and electronics, mechanical engineering, piping layout, power generation and industrial plants; design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching; exploration and searching for oil and gas; geophysical exploration for oil and gas; providing well pressure testing and control services for others in the oil and gas industries; pressure testing of oil and gas wells; oil and gas well logging and testing; oil and gas exploration and production services; engineering services in the field of oil and gas exploration and production; technical support services for the oil and gas industries; surveying services; surveying services for the oil and gas industries; provision of technical research and support for the oil and gas industries; managing the exploration, production, logistics and operations of gas and oil properties for others; downhole data acquisition; testing of industrial and aviation turbines; provision of workshop facilities for engineering research and design in the field of oil and gas exploration and production; calibration of equipment and machinery used in the field of oil and gas exploration and production; measurement services, namely, providing measurements and downhole telemetry for use in the drilling of oil and gas wells; quality control and auditing services provided for others in the fields of oil and gas exploration, drilling and production; certification services in the field of oil and gas exploration and production; commissioning services in the oil and gas industry namely, environmental health and safety management services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification requirements, providing project management in the oil and gas field, inspection services to ensure equipment and buildings meet health, safety and regulatory standards, performance verification and certification of equipment, systems and buildings in the oil and gas field; oil and gas well environmental analysis for authentication testing; testing of equipment and machinery in the oil and gas field to ensure compliance with health, safety and regulatory standards; technical testing of network systems for use in the oil and gas field; engineering machinery safety testing services; provision of testing and inspection facilities for oil and gas equipment; material testing services; scientific testing services, namely, oil and gas well testing; engineering testing; engineering testing in the oil and gas industry; engineering testing, namely, data analysis services in the oil and gas industry; laboratory testing of materials; industrial testing of engineering projects, namely, production testing services in the oil and gas field; rental, hiring and leasing of equipment and machinery for use in the oil and gas industries; commissioning of oil wells and gas wells; decommissioning of oil wells and gas wells; research in the field of welding; surveying; oil and gas field surveys; provision of facilities for engineering analysis, testing and research in the field of oil and gas exploration and production; environmental protection services; consultancy services relating to environmental planning and compliance services for others and technological assistance services for procuring environmental permits in the fields of oil and gas exploration, drilling and production; design of oil and gas exploration and production facilities which comply with environmental standards and regulations; geological research and exploration services; geological surveys; land surveying; geological prospecting; operation and control of oil and gas exploration and production; engineering drawing services; computer aided graphic design and computer aided mechanical design services in the oil and gas field; technical writing of documents and reports for engineering projects in the oil and gas field; graphic services; engineering design, research and development services for others; technical research for others in the oil and gas field; civil engineering design services; validation services namely assessment services to ensure that a conceptual idea works and the provision of data to validate a concept, all relating to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering validation services; consultancy services provided to others for the appraisal and selection of licensors and licensor coordination in relation to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering design services relating to planning, architecture, civil engineering, mechanical engineering, design engineering, fire engineering, petrochemical engineering and industrial plants; mechanical systems design services; provision of safety advice in relation to engineering and production projects and industrial plants and processes; provision of hazard and operability studies to identify and evaluate problems with equipment and machinery used in oil and gas field operations; design of an industrial control system comprised of computer hardware and software for use in controlling equipment and machinery used in oil and gas field operations; software engineering services; database design and development; design and planning of equipment and plant/building layout used in oil and gas field operations; interior design of plants/buildings used in oil and gas field operations; engineering and technological assistance for procurement of environmental permits; design of automated handling systems for use in material handling in oil and gas field operations; geotechnical engineering services; environmental engineering services; design and layout of pipelines in the oil and gas industry; design of ventilation, heating and air conditioning systems; instrument and process control engineering services in the oil and gas field; design of engineering project specifications; planning of buildings and infrastructure systems for buildings; engineering design and coordination and consultancy services; industrial plant optimisation services; industrial plant operation services; engineering modelling and process modelling, namely, modelling on a computer of processes and the evaluation of such processes in the oil and gas field; computer modeling services, namely, computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; finite element modelling; finite element analysis services; thermodynamic modelling ; oil field analysis services, namely, interpreting laboratory measurements for modelling processes; process simulation and optimization, namely, the creation for others of simulations of processes and the subsequent optimization of those processes in the oil and gas field; process troubleshooting, namely, problem and hazard identification through computerized process modelling in the field of oil and gas exploration and production; computational fluid dynamics engineering services; engineering and technological services for the automation of systems and industrial plants; process engineering services; energy auditing services; seismic analysis services, namely, design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; product design consulting services; managing oil and gas exploration and production plants and sites for safety purposes; conducting technical and engineering due diligence in the oil and gas field; environmental due diligence, namely, the preparation of reports on environmental factors in the oil and gas field; engineering and technical assessment of oil and gas field operations; business evaluation services, namely, benchmarking and technical performance testing in the oil and gas field; inspection and testing of plants, equipment and machinery used in the field of oil exploration and production; consultancy services relating to environmental issues; preparation of technical and engineering operating manuals; engineering and technical development of projects and industrial plants; Materials testing and evaluation; engineering operational support services, namely, environmental health and safety management services, systems integration services, installation qualification and technical assessment services, and installation qualification services, namely, the assessment of whether an installation meets qualification requirements; remote well control system design services; conducting engineering feasibility studies in the fields of oil and gas exploration and production, and renewable energy and power generation; conceptual engineering design services; technical commissioning supervision, namely, performing commissioning reviews on oil and gas facilities and structures; technological services for the automation and control of systems; engineering services, namely, the automation and control of computer operating systems in the oil and gas field; instrumentation and control system engineering; engineering services, namely specification, integration and implementation services in the fields of oil and gas exploration and production; certification services, namely, providing certification on completed projects in the fields of oil and gas exploration and production; technical supervision and inspection in the field of oil and gas exploration, drilling, retrieval and production; technical handover services, namely, business services for transferring an initiated project to its owner and business advisory services given to owners of initiated projects by way of technical support; engineering services, namely, the coordination of permit-to-work systems in the fields of oil and gas exploration and production; engineering audit services in the oil and gas field, namely, performing engineering audit reviews for integrity process status; data collection services in the fields of oil and gas exploration and production; document management in the fields of oil and gas exploration and production; technical writing; civil infrastructure engineering and construction; decommissioning, dismantling, reengineering, installation and commissioning of engineering projects and plants; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems, namely computer software and databases for use in relation to project management in the fields of oil and gas exploration and production; providing technical information in the field of oil and gas exploration and production; laser scanning services; oil field surveying; technical surveying; engineering plant design management systems; development of interactive multi-media software; software design services for use in the oil and gas industries; software design services for the design and data management of subsea systems, pipelines and risers; valve engineering services; consulting and project management services for the energy industry, namely, process optimisation, asset integrity management services, and project document control services; provision of computerized engineering management systems in relation to logistical, operational and efficiency in the fields of oil and gas exploration and production, renewable energy and power generation; technical writing; writing computer software; editing of computer programmes; engineering lifecycle integrity services, namely, monitoring, inspecting, assessing, maintaining, repairing and advising in relation to the safe and effective functioning of machinery used in the field of oil and gas exploration and production, renewable energy and power generation; design and development of lifecycle management software; inspection and calibration of safety systems in the field of oil and gas exploration and production, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production.

CLAIMS

Priority Filing Date: UNITED KINGDOM June 12, 2014, Application No: UK00003059591 in association with the same kind of goods (2) and in association with the same kind of services (2). Used in UNITED KINGDOM on goods (2) and on services (2). Registered in or for UNITED KINGDOM on October 10, 2014 under No. UK00003059591 on goods (2) and on services (2). Proposed Use in CANADA on goods and on services

Application Number 1,688,931 **Filing Date** 2014-08-11

CERTIFICATION MARK

CONEGLIANO VALDOBBIADENE - PROSECCO

Certification Mark Text

The certification mark CONEGLIANO VALDOBBIADENE ¿ PROSECCO is only affixed to the wines which are produced in whole or in part using methods, equipment, supplies, ingredients, qualities of care and packaging and in such geographical areas and from such grape varieties, blends, vintages, vineyards and estates and having such characteristics as to taste, color, smell or otherwise as described in the USE REGULATIONS OF CONEGLIANO VALDOBBIADENE ¿ PROSECCO (which incorporate by reference the Disciplinary Rules of Production of controlled and guaranteed designation of origin 'Conegliano Valdobbiadene - Prosecco'), and which wares are subject to regular inspection to ensure the maintenance of such standards. A more detailed specification of the standards is on file in the Canadian Trade Marks Office.
